If it was this easy, it wouldn’t be an Audi.

When you were a kid, you probably felt quite proud when you completed a model kit. We understand. At Audi, it takes countless hours for a single Audi to go from idea to design to roadworthy, and that’s why we are very proud to devote. Our obsession for detail, commitment to premium fit and finish and passion for unparalleled engineering go into every model. It’s the kind of discipline that the word “painstaking” was invented to describe. Not to say it’s a chore—no, assembling an Audi is a labor of love, and it shows every time you sit in one, engage the ignition and nudge the accelerator. Creating an Audi isn’t easy, but the results help define what Audi means to the people who drive one.
The door of perception.

It’s said that, when one door closes, another one opens. It sounds as if whoever said it spent some time at an Audi research and development facility. After all, while you’ll open and close the door on your Audi thousands of times without thinking about it, we’ve obsessed about it for you, in detail. Not just about the reliability of it opening and closing, but on the proper weight that will make it more pleasing to close. How the locks should click when they are engaged. The optimal acoustic placement for the speaker port. There are the hinges too, of course. And the door itself, which we designed to take the brunt of side-impact collisions, and several dozen other safety considerations (to say nothing of the countless other components, processors, sensors, window features and the inner workings most people will never see). Our doors are more than a symbol of welcoming you into your vehicle, they are products of Audi engineering, and the very perception of Audi hinges on them as much as our hinges help support the door.

OUR REPUTATION HINGES ON THE QUALITY OF THINGS YOU DON’T SEE.

Innovative Design

By using fully pressed aluminum doors in the Audi A6, the door structures were reduced by an astonishing 44 lb compared to the previous model.

Speaker Placement

Optimal speaker placement helps deliver the most extraordinary sound you can find in the automotive space.

Acoustic Enhancements

We use soft mounts on our window regulator and a sound-absorbing backing within the door cavity itself to make the cabin even quieter.
quattro® HAS MAINTAINED ITS GRIP ON OUR THINKING AND THE ROADS WE TRAVEL.

For more than 30 years, Audi has been focused on quattro® all-wheel drive. During that time, it has evolved into an overarching idea of performance, a technological system of ratios, power delivery and driving dynamics working seamlessly together, orchestrated through the drivetrain, providing power where and when it is needed most. In many ways, this has been a three-decade drive, from the Alps to the autobahn—and points beyond. You’ve seen quattro® capabilities in the way we dominated the World Rally Championship for years, in the grip you have in inclement weather, and in the variable power distribution you enjoy in good conditions. For more than 30 years, and with over five million quattro® systems on the road, we have continued to refine the technology, developing an available rear sport differential to help maximize performance and available torque vectoring to assist with cornering traction while helping to improve handling. We’ve boldly stuck to what worked while the world was trying to catch up, and we built on it.

When we think of a good idea, it sticks.

1. When driving during cold, rainy, snowy or icy weather conditions, ensure that your vehicle is equipped with appropriate all-season or winter tires. Even with appropriate tires, you must always drive in a manner appropriate for the weather, visibility and road conditions.
The obsessive engineering of maximum fitness.

There is an art to fitness. Yes, there are some who go for the massive, sculpted muscle look. But there is something more compelling out there for those with more refined tastes. The kind of sculpted efficiency found in Audi engines elevates the driving experience through smaller, finely tuned forced-induction engines. For the drive to feel lean and precise, we’ve shaved off unwanted sounds. Sure, large numbers might distract some, but a champion impresses with its grace, power and athletic balance—captured in the right suspension setting, or a torque-vectored corner. Audi engineers shape power that celebrates a true dedication to craft. It means strength that pulses at the moment of acceleration, provides a quick response as you change lanes, and turns the most routine cloverleaf into a joyful application of performance handling. This is the art of maximum fitness, to the point where others just feel a little flabby.

ENGINEERING POWER IS MORE THAN JUST ADDING MUSCLE.
ELEPHANT SKULL

How nature solved the apparent contradiction of an elephant’s skull didn’t escape the notice of Heinrich Timm, the longtime lead engineer for Audi. The weight of the tusks and the general size of an elephant’s head would seem to make it impossible for the animal to actually bear the weight. But the design genius behind the elephant’s skull is to make it lightweight yet strong. Its predominantly hollow design is buffered by thin, connecting bone walls, which act as strong, weight-bearing cells. Audi engineers used that idea when building our aluminum and steel structures. Reducing weight, yet enabling strength.

THE ELEGANT STRUCTURE OF NATURE BECOMES A BLUEPRINT OF EFFICIENCY.

It seems strange to say that, while we build strong, complex and high-performing machines, we’re naturalists at heart. Then again, it might not be that unusual, seeing how nature itself builds strong, complex and high-performing machines as well. When we developed the thinking behind our ultra® lightweight technology initiative, we knew that nature would serve as an inspiration to greater structural efficiency. Take the structure of the elephant skull pictured here. It has to be lightweight, yet capable of carrying a heavy load. It’s porous, but its structure is such that it enhances its stability and strength. We do the same, for example, with aluminum. Positioned one way, aluminum materials can be flexible. Positioned another, they are strong and rigid, and help give better support. We also looked to bamboo, which is strong at the conjoined areas (nodes), and flexible along its stem. Our designs allow for both rigidity and flexibility where each is most needed, and for efficiency overall. As we continue to develop strategies to improve the performance aspects and efficiency of our vehicles, we don’t shy away from the world around us. We boldly engage it even closer still.

ALUMINUM

Our large aluminum castings are a telling example of ultra lightweight technology. Primarily used in high-stress areas, these castings achieve strength and rigidity while remaining extremely lightweight.

How studying elephant skulls makes for superior handling.
Always pay careful attention to the road, and do not drive while distracted. The features and technologies discussed above are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The Wi-Fi® hotspot feature is intended for passenger use only. Features and technologies listed are not available on all models. The voice control feature is not available on Cabriolet or Roadster models.

MMI® navigation plus depends on signals from the worldwide Global Positioning Satellite network. The vehicle's electrical system and existing wireless and satellite technologies must be available and operating properly for the system to function. The system is designed to provide you with suggested routes in locating addresses, destinations and other points of interest. Changes in street names, construction zones, traffic flow, points of interest and other road system changes are beyond the control of Audi of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible, therefore you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested MMI® navigation plus route. For mapping updates please see your Audi dealer or call 1-800-FOR-AUDI for details. Features and technologies listed are not available on all models.

Share what's on your mind. Looking for a great Chinese food place? We'll help you get there. Thinking about a rest stop? We'll locate the nearest gas station for you, and even give you the price of their fuel. In fact, in your Audi, just say the word, and we'll help you find almost anything, even your home phone number. With available Audi connect with Google Voice™ command capabilities, we’ve developed a way to let you articulate your desires, even if that’s just finding the closest burger stand or the best hotel! MMI® navigation plus with Audi connect helps integrate networking capabilities on the go, along with Google Earth™ with 3D satellite imagery, to help you avoid traffic (and possibly saying things you might regret)! Audi connect also provides fast data transfer speeds and Wi-Fi® connectivity for up to eight passenger devices to help you stay informed. It offers a full suite of services and interactivity, and, yes, even the closest Szechuan restaurant, which you can find by using its Google™ Local Search capabilities. Best of all, you don’t even have to say “Thank you,” even if we appreciate it when you do. 

Audi Connect® really gets what you are saying.

Just talk to us, baby.
Even in the dark, you know when you’re staring at an Audi. In fact, it might just be love at first sight. That’s because, instead of cursing the darkness, we celebrate the light. Available full LED headlights stand out from the rest: their color intensity is engineered to be reminiscent of daylight. But while we illuminate the night, we don’t forget the day—so we made our LED daytime running lights to look even more dramatic. Now featuring a sleek diode design that gives us the freedom to elegantly reshape our signature style, Audi LED lighting is once again ours. It is an efficient, beautiful way to help you see and be seen from dusk to dawn and back again. Look deep into our eyes, and you might just see the soul of a company.
CLEAN, BEAUTIFUL DESIGN COMES FROM DEDICATED CRAFTSMEN UNAFRAID OF GETTING THEIR HANDS DIRTY.

How we know exactly what you feel.

Our hands give you shade and sanctuary. Our hands give you comfort and control. You might not sense our hands nearby, but our hands know exactly what you feel. That’s because we’ve been there. After all, our hands crafted a customized world that’s dedicated to control, comfort and entertainment. We’re talking, of course, about the cabin of your Audi vehicle. Optimized luxury, designed by committed craftsmen who had you in mind when they chose the leather seating surfaces, created the contoured seats or provided the refinement of ergonomic design and an available more intuitive MMI® system. There are small touches that help simplify the overall design, and there are large statements to help you feel at ease. It is your Audi interior, shaped by the kind of people who know you want to experience luxury firsthand.
You have to weather adversity to know things like this.

Think of it this way—if it rains, would you notice a dry side view mirror? Maybe not, but compared to one with beads of rain on it and distorted reflections, you would. It’s a little thing, perhaps, but these little things are part of our deep obsession with crafting a premium driving experience. We design our exterior side mirrors with small sills to channel water along their upper edge, helping leave your view unobstructed. We also design our windshield moldings with channels that allow rain water to efficiently run off instead of returning to the windshield wiper path. These are small touches, thought of by engineers and crafted by designers who don’t necessarily call attention to their skills. Instead, these details reflect a commitment to quality that you might never notice—until a moment of bad weather or adversity, when you might. But don’t worry. We don’t mind if you don’t notice us, now and then.
Either think about the future, or make history.

SUPREMELY PRACTICAL LUXURY WITH A SUNNY KIND OF ENERGY.

Talking about a better future is easy. After all, how can you be held accountable for something that never arrives? But if you really want to affect it, to make history, you have to do more than talk. Enter e-tron®. It’s not the first plug-in electric hybrid to the market, but we are making it the most forward-thinking Audi ever produced. For example, we will be including a level 2 charger with our A3 Sportback e-tron PHEV for qualified owners who want to drive on electricity as much as possible. We also plan to offer unique sustainable energy offerings like an available solar program to help provide power to your home and vehicle. It’s not just practical, it’s premium too, in style, in performance and in fit and finish, like any other Audi vehicle. But more than that, it will be Audi making smart technology smarter, with adaptive kinetic energy-harnessing when you brake, and better performing than what came before it. With the Audi e-tron vehicles, we’re saying the future is now.

1. 240-volt, 32 amp, wall-mounted hardware and cabinet included with the vehicle. Installation and wiring costs are extra, and will vary. See your participating dealer for details.
When you are attracted to something, the effects are immediate, the domination, total. For a relationship to last, though, it must move beyond that passionate initial phase. It’s what comes next that turns a bright flame into an eternal torch. That’s why Audi doesn’t simply design premium vehicles for the short-term, but offers an entire experience that we hope lasts a lifetime. Do you want to customize your Audi? We offer Audi exclusive materials and colors. Do you want care-free service options? Audi Care is available. MMI® updates, trial offers for Audi connect®, a full suite of available Audi driver assistance technologies—these might not be the reasons why you fell in love with an Audi, but they are, perhaps, the things that help keep the heart fires stoked.

1 Optional features and technologies listed are not available on all models. See Infotainment/Technology section of the Featured Content page for important information regarding MMI® navigation plus and required SiriusXM® subscription.
The alchemy needed to build an automotive icon is elusive. Sure, it’s found, partly, on an assembly line, with committed artisans taking pride in every stitch they sew. It’s also on a drafting board, sketched by visionary minds, looking to further expand what we look for in automotive design lines. But it’s the countless inspirations, both little and large, that not only capture a bold thought or striking idea, but execute them. Examples of these can be found in the foundational stories we tell about our company and our vehicles. These stories show how an abstract idea can transform into a powerful, sculpted machine, and therefore that machinery can help forge an iconic reputation for a brand. Out of the inspirations we find in engineering, art and the large world of ideas, we have created a fearless, iconic company of substance and luxury: Audi.

Inspirations that build an icon.
We don’t take chances, we make strides.

Nothing captures the imagination like an automobile that turns heads. That’s why every double-take the Audi A5 gets is a testament to the adventurous spirit and bold sensibilities of both Audi designers and drivers alike. And that’s why there is such a strong response to the sophisticated lines that sweep across the A5, as well as to the seductive punch of its acceleration. Everything we build into the A5, even the way we hide the B-pillar, is meant to give it a sense of movement. Something you might notice even when it is standing still. Heads turn because we pay attention to every detail, from the precision handling to the striking headlights with LED daytime running lights, which seem to stare back at the attention of onlookers. Available in Coupe and Cabriolet, there is an A5 crafted to provoke emotion, and maybe even a little envy, in every person who looks as you drive by.

We do not follow design trends. We set them.

2015 AUDI A5 COUPE PRESTIGE SHOWN IN DAYTONA GRAY PEARL WITH AVAILABLE EQUIPMENT.
Enlighten
A new light on illumination just happened to be a design boon.

Thrill and be thrilled.

It may be, as has been suggested, that the Audi A5 is a polarizing vehicle. Then again, magnets are like that. Of course, we know what draws people in. The unmistakable look, to start, but the power too. LED daytime running lights introduce inviting illumination, and the tapered Singleframe® grille adds a bold sense of daring and an iconic look to the front fascia. But one gathers the possibility of more, such as the power distributed by the impressive 2.0-liter turbocharged TFSI® engine and optimized by the quattro® all-wheel drive system. The details tell the story—sharpened design lines streamline the body, continually pushing the envelope of style while embracing the spirit of our Audi Sport® heritage. In short, the more we tried to thrill onlookers, the greater thrill we experienced ourselves.
Craftsmanship

We've ensured that every stitch represents the detail that we put into every aspect of an Audi.

Panoramic sunroof
Another enhancement to your drive is the standard panoramic sunroof with tilt functionality of the A5 Coupe. An unimpeded view of the sky gives the feeling of infinite head room. If you don’t want to fully engage with the environment, the retractable shade feature is there too. So let the sun drench the interior of your A5 as you enjoy a carefree driving experience.

Split folding rear seatbacks
With 12.2 cu ft of cargo space in the A5 Coupe and 10.2 cu ft of cargo space in the A5 Cabriolet with the rear seatbacks in the up position, the A5 is a capable carrier. The Cabriolet has split folding 50/50 rear seatbacks, and the Coupe features a pass-through in the split folding 60/40 rear seatbacks. You can enjoy all the benefits of a sports car and still have room for your oversized toys.

We spared no expense in bringing you delight.

The finest materials pepper the interior of every Audi A5. There may be more cost-effective ways to design a vehicle’s interior, but ours are intended to stimulate more than just your sight. You’ll feel and smell the distinctive elements inside the A5. Whether it’s the finely stitched leather-wrapped multifunction steering wheel in your hands, or the scent of our finely crafted leathers that greets you when you climb into the cockpit, you’ll find exactly what you’ve come to expect from Audi: sleek, fluid and substantively composed interiors that solidify the connection between you and your vehicle.
2015 AUDI A5 COUPE PRESTIGE SHOWN WITH TITANIUM GRAY LEATHER AND AVAILABLE EQUIPMENT.

Thanks to our three-spoke multifunction steering wheel with available shift paddles, every control you need is right at your fingertips, intuitively placed to help establish an ease of operation while you navigate any commute. Our driver-centric cockpit is more than just a design imperative, it is our way to help ensure that you’re navigating the vehicle’s technology with the same precision that our vehicles perform with on the road.

Always pay careful attention to the road, and do not drive while distracted. Technologies and technologies discussed above are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The Wi-Fi® hotspot feature is intended for passenger use only.
Retractable acoustic folding soft top
The top of the A5 Cabriolet invites you to take advantage of clear skies for as long as the sun is out. If clouds do arrive, it takes approximately 17 seconds for the top to fully deploy (even at speeds up to 31 mph). When the top is up, it also provides a great acoustic environment designed with both sound-deadening and insulation properties.

2015 AUDI A5 CABRIOLET PREMIUM PLUS SHOWN IN DAKOTA GRAY METALLIC WITH AVAILABLE EQUIPMENT.

Retractable acoustic folding soft top
The top of the A5 Cabriolet invites you to take advantage of clear skies for as long as the sun is out. If clouds do arrive, it takes approximately 17 seconds for the top to fully deploy (even at speeds up to 31 mph). When the top is up, it also provides a great acoustic environment designed with both sound-deadening and insulation properties.

Equal parts sun, sky and dreams.
It’s style that includes stars, but has nothing to do with Hollywood. It’s outside, but not obsessed with waterproof hiking boots. It’s the world seen and felt with the top down in your Audi A5 Cabriolet. Day or night, with wind gliding past you, discover a thrilling connection to your environment—while still being plugged into signature automobile technology. You can even stretch your top-down driving season with an available head-level heating system that helps ensure your comfort even when the temperature doesn’t match your mood. The A5 Cabriolet takes design, precision and a retractable roof to turn the outside into something that’s very much in.
You may not think of SPF as an automotive spec.

We’ve got you covered, even with the top down. The available perforated Milano leather ventilated and heated comfort front seats create a tranquil commute no matter what the weather brings. From heat-reducing pigments in the leather to an aerodynamic windshield that helps the air flow by when you open up the drive, we’ve thought of everything to help ensure your comfort. Just in case you’ve forgotten your sunscreen, you can easily bring the roof back up, further proof that you hold a wide range of power.

Ventilated and heated front seats
Some added comforts for the top-down drive along the coast are the available heated and ventilated comfort front seats. You can get a little extra touch of warmth from the available head-level heating system vents that blow warm air directly onto your neck and shoulders.

Thermocool feature
The leather surfaces of our Cabriolet front seats are designed with special Thermocool heat-reducing pigments that, even in direct sunlight, help reduce surface temperatures, compared to untreated leathers. It’s just another way we prove our commitment to your comfort.
Under normal driving conditions, power slightly favors the rear axle.

When traction is limited at either axle, power is shifted to the axle with the most traction.

When accelerating, power is shifted to the rear wheels for extra rear traction.

A little added confidence can help powerfully steer you in the right direction.

Torque vectoring

It’s a handling feature so quick that it seems to respond to your impulses instead of your steering input. An evolution of cross-axle lock, this system works within quattro®, utilizing ESC and ABS to help sense traction loss from the inside cornering tire.

Seasonal stability

There is a reason quattro® all-wheel drive is a friend in foul weather: Under normal driving conditions, the center differential splits torque at a ratio of 40:60, front to rear, but as conditions change and become more challenging, the ratio is optimized to help maximize grip.

Power out

Torque vectoring distributes power to the outside wheels when turning, helping give you added control in the corners.

quattro® seamlessly transfers power as needed as driving conditions change.

There’s an elegant sense of assurance when you are in control. In the case of quattro® all-wheel drive, the elegance is created by a sophisticated system developed by Audi engineers to help you with the ability to gain more control when road and weather conditions aren’t their best. Through enhanced grip on twisting mountain roads and powder-dusted streets—to say nothing of the precision you’ll feel in taking corners in perfect conditions—quattro® works with drivers who want peace of mind as much as power. Because it was built and honed to transfer the necessary amount of power to the appropriate wheels when accelerating and turning, quattro® helps enhance Audi performance, but the real story just might be how quattro® helps engineer confidence in good drivers.

85:15

When accelerating, power is shifted to the rear wheels for extra rear traction.

At Audi, we believe you should be the ultimate master of your road-going domain. That’s why we created the available Audi drive select system. It gives you the ability to adjust the vehicle’s steering, throttle response and transmission shift characteristics with the utmost of ease. And with four modes to choose from, when almost any kind of road comes into question, Audi drive select will let you answer.

**Comfort mode**
Perfect for those long highway stretches, this setting adds supple steering and a closer shift pattern to help provide a more relaxed drive.

**Dynamic mode**
Tighter steering and a more responsive throttle give this setting an aggressive feel and focused performance.

**Auto mode**
The best of both worlds, dialed to automatically adjust settings for a seamless combination of comfort and responsiveness based on your driving style and road conditions.

**Individual mode**
Take the turn your way—this mode allows you to adjust the steering, throttle and transmission upshifts to your style.
Six-speed manual transmission

For drivers who crave engaging and dynamic response, the Audi A5 Coupe presents an available six-speed manual gearbox that delivers power with vintage Audi finesse. Its short throw and precise ratios add a contemporary element for confident performance on the road.

This is how power accelerates.

There is an old school of thought in the automotive world that bigger is better. More horsepower, greater displacement—these were once the hallmarks of the industry. Audi, on the other hand, progressed past this antiquated notion of engine design and adopted a system that refines the driving experience. By utilizing a turbocharger, the powerful 2.0-liter engine delivers a broad torque curve and impressive off-the-line acceleration. And since more responsive vehicles breed better performance, the result is an exhilarating driving experience at every turn.

There is an old school of thought in the automotive world that bigger is better. More horsepower, greater displacement—these were once the hallmark of the industry. Audi, on the other hand, progressed past this antiquated notion of engine design and adopted a system that refines the driving experience. By utilizing a turbocharger, the powerful 2.0-liter engine delivers a broad torque curve and impressive off-the-line acceleration. And since more responsive vehicles breed better performance, the result is an exhilarating driving experience at every turn.

With efficiency comes great power.

The Audi A5 offers two transmission choices that precisely transmit the power produced by the 2.0-liter TFSI engine. With wide gear ratios for smooth shifting and impressive performance, it doesn’t matter which transmission you choose. Available steering wheel-mounted shift paddles for automatic transmissions let you shift up or down with minimal effort, while the six-speed manual transmission gives you the control that performance drivers crave. A shift has been made, and the choice is yours: choose what propels your A5.

Eight-speed Tiptronic® automatic transmission

As the perfect compromise between a dedicated manual and an automatic gearbox, the eight-speed Tiptronic® automatic transmission available in the A5 offers eight optimized, carefully chosen gear ratios. Selected automatically or via its console-mounted shifter or steering wheel with available shift paddles, precise shifts are delivered without sacrificing the smooth action of the Tiptronic® automatic. A high first gear ratio allows optimization of lower gears, yet the transmission’s upper range emphasizes cruising at highway speeds.

Performance

2.0 TFSI® four-cylinder

This 2.0-liter turbocharged DOHC engine produces 220 horsepower and 258 lb-ft of torque, and combines the valvelift system, FSI® direct injection and turbocharging for great power and overall performance.

Induction-technology turbocharger

Compressing airflow to the engine allows more air into the cylinder and, ultimately, more power from each combustion cycle, helping to improve the engine’s power-to-displacement ratio.

Turbocharger

An induction-technology turbocharger is located in the front of the engine and is connected to a shaft that is connected to a compressor that compresses air. The compressor forces this pressurized air into the cylinders at boosted pressures up to 17.4 psi, thus producing more power from a smaller displacement engine.

2.0 TFSI® four-cylinder

This 2.0-liter turbocharged DOHC engine produces 220 horsepower and 258 lb-ft of torque, and combines the valvelift system, FSI® direct injection and turbocharging for great power and overall performance.

Induction-technology turbocharger

Compressing airflow to the engine allows more air into the cylinder and, ultimately, more power from each combustion cycle, helping to improve the engine’s power-to-displacement ratio.

Turbocharger

An induction-technology turbocharger is located in the front of the engine and is connected to a shaft that is connected to a compressor that compresses air. The compressor forces this pressurized air into the cylinders at boosted pressures up to 17.4 psi, thus producing more power from a smaller displacement engine.

220 horsepower

258 lb-ft of torque

maximum boost pressure: up to 17.4 psi

Compressing airflow to the engine allows more air into the cylinder and, ultimately, more power from each combustion cycle, helping to improve the engine’s power-to-displacement ratio. With efficiency comes great power.

The Audi A5 offers two transmission choices that precisely transmit the power produced by the 2.0-liter TFSI engine. With wide gear ratios for smooth shifting and impressive performance, it doesn’t matter which transmission you choose. Available steering wheel-mounted shift paddles for automatic transmissions let you shift up or down with minimal effort, while the six-speed manual transmission gives you the control that performance drivers crave. A shift has been made, and the choice is yours: choose what propels your A5.
Audi adaptive cruise control

Everyone has their own comfort zone. The available Audi adaptive cruise control helps maintain a driver-selected distance from the vehicle in front by using a special long-range radar sensor. The system constantly measures the space between your vehicle and the vehicle ahead, and adjusts your speed appropriately to help keep you moving smoothly. There are also the simple things, like the available parking system, which adds a rear view camera and rear acoustic parking sensors to help ease you into that spot. It’s another testament to the effort that Audi puts into helping ensure that you’re not the only one keeping an eye on the road.

Audi side assist

The available Audi side assist uses radar sensors and two different optical warnings to help keep the driver informed about what is approaching from hard-to-see angles behind and to the side of the vehicle.
A little give requires a lot of strength.

We decided that, regardless of size, strong should be a more flexible concept. Ultra-high-strength steel helps add a measure of security while enhancing overall handling and performance. Sophisticated airbag technology is designed to deploy airbags based on seat position,1 while specially constructed crumple zones give way upon impact to help mitigate potential injury in a collision. All of this, combined with the rigidity of laser seam-welded joints that enhance the strength of every Audi we make, helps diminish the impact of an unavoidable event.

Active rollover protection system
In the unlikely event that your A5 Cabriolet rolls over, sensors deploy two roll bars from hidden compartments in the rear. Reinforced A-pillars up front and safety belt pretensioners also help protect passengers. It’s another way we keep innovative design as high a priority as your safety.

Airbags
Sensors mounted in the front seats monitor your seating position to help ensure that the adaptive front airbag will deploy in the event of a collision. Driver and passenger front seat-mounted thorax side airbags help keep your upper body protected, while knee-level airbags help keep tabs down below. The A5 Coupe even has two rows of Sideguard® head curtain airbags for an added level of protection.1

1. Airbags are supplemental restraints only and will not deploy in all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age.

Tailor-made blanks
Developed to make the best possible use of the body’s potential, tailor-made blanks are designed around the Grade 900 hot-stamped steel process that can help strengthen the upper zone of a pillar while mitigating the impact in the lower zone in the event of a side collision.

Knautschzone may be an ugly word, but it’s a beautiful technology. German for “crumple zone,” this ingenious feature helps dissipate the energy from a collision by spreading the impact forces around the passenger cell and away from its occupants. In doing so, it also enhances the vehicle’s deceleration rate, which helps to further lessen the force of impact.
SiriusXM® Satellite Radio

Go ahead. Crisscross the country. We assure you, you’ll never run out of entertainment options, with over 150 channels of music, talk, sports and news.1

MMI navigation plus

Count on the available advanced navigation system to home in on your destination with stunning precision while putting a little more depth in your journey with help from the available Audi connect®.1,2

BLUETOOTH® wireless technology

Unlock your compatible mobile phone’s potential through the MMI system. Simply pair them up and start enjoying near complete control at the touch of a button.

MMI System

Putting your needs front and center.

We believe intelligence is key to a higher form of luxury. You can see this philosophy fully represented in the available MMI® system. Simply put, it’s an intuitive system that intimately connects you to almost every facet of the vehicle. It’s the nerve center of your vehicle, allowing you to control virtually every interior function of your Audi with a simplified source control button system. Whether it’s MMI navigation plus, or BLUETOOTH® streaming audio, MMI helps you access information with a few easy clicks. And even without it, you can pair your compatible phone with the vehicle for added convenience. With this kind of brainpower onboard, you can leave the little stuff to us, and just concentrate on how good it feels to drive.1,2

1 See Infotainment /Technology section of the Featured Content page for important information regarding MMI® navigation plus and required SiriusXM® subscriptions.
2 Always pay careful attention to the road, and do not drive while distracted. The features and technologies discussed above are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The Wi-Fi® hotspot feature is intended for passenger use only.

Audi media

The media function opens up a world of options when equipped with the MMI navigation plus, allowing you to control the Audi music interface, Secure Digital (SD) card slots, hard disk drive (HDD) audio jukebox or DVD, and BLUETOOTH® streaming audio from a compatible device.1,2

Get in touch with your inner techie.

Tell us what you’re looking for and we’ll deliver you to it.

Don’t reach–relax. While touchscreens are seemingly everywhere, they don’t need to be in your vehicle. With available Audi connect®, you may never have to reach out again! Thanks to Google Voice™ Local Search, Audi connect allows you to quickly search Google™ by simple voice commands (use only when the car is stationary). The crisp display is mounted farther up, closer to the windshield and near your sight line to the road ahead. For those times when you are feeling tactile, we’ve placed toggle buttons near the gear shifter, where your hand naturally rests when using them. So while other automobile manufacturers still want you to reach out, we’ve found a few ways for you to make information a lot more accessible while your hands are on the wheel.

Plan travel from your personal computer. Send your desired destinations to your vehicle ahead of time and access your route from your vehicle later.

Get your current traffic information overlaid onto available 3D satellite imagery to visualize a true aerial view of your route, and in the MMI navigation plus system reconfigure your route to avoid traffic.

Stay on top of the news by having headlines and stories delivered right to your MMI® display.

Are you vacant and wondering where to head next? Audi connect® can help you prepare for your trip. With Google Earth™ integration, you’ll enjoy 3D satellite imagery, including Google Maps Street View, displayed right on the MMI display.

Simply tell your Audi what you are in the mood for: cheese or circuit processing power of Google™ speech recognition, interpret your request and bring up a list of destinations in the area of your choice.

Google™ Street-View simply displays the world around you. With Google Maps Street View, your vehicle can show you a driver’s-eye view of your destination right before you arrive so it’s easy to recognize.

Bang & Olufsen® Sound System
Dedicated to the idea of “honest music reproduction,” Bang & Olufsen® is a sound engineer’s dream. Through an available 505-watt system perfectly integrated within your Audi, Bang & Olufsen® is set on transcending the limits of audio technology. By automatically adjusting volume and timbre balance to changing ambient noise levels and offering richly tuned acoustics, you’ll hear the truth about how good life can sound in your Audi.

Sound
Audi is Latin for “listen,” so you know we take sound very seriously.

2,093 Hz
High note on a piano
Even at a frequency of 2,093 Hz, the equivalent of the double high C note found on a piano, the sound system clearly and effortlessly reproduces the sound, giving you front row seats to every symphony.

52 Hz
Low note on a kick drum
True bass lines are something you feel more than hear, and when a kick drum hits you with a frequency of 52 Hz, you definitely feel it. Knowing this, Audi sound engineers worked to reproduce sounds at this level for an exceptionally realistic experience.

261 Hz
Singing middle C
At a frequency of around 261 Hz, you’ll find middle C. It is around this frequency that much of the brilliantly orchestrated sound is reproduced by the numerous, strategically placed speakers.

Lend us your ear.
It’s been said that people only hear what they want to. That what they don’t like just goes in one ear and out the other. Well, for those people and everyone else, we’ve created a sound system that makes every note worthy of your eardrum’s full attention. From perfectly sculpted high notes to a crystal clear mid-range to deep-diving lows, the available Bang & Olufsen® Sound System is a veritable orchestra of engineering that fills the cabin with faithfully rendered, thrilling sound. Which shouldn’t be surprising at all, considering that Bang & Olufsen® and Audi sound engineers worked tirelessly to craft a perfect acoustic environment, and the ideal delivery system for it. So whether you’re the type that wants to be soothed by sound or the type that wants to be inspired by it, we promise, if you take a moment to listen, that what you’ll hear will be utterly impossible to ignore.
While the Audi A5 may be everything the devotee of the authentic coupe requires, sometimes even a purist yearns for a little bit more. A supercharged 3.0-liter TFSI® V6 engine sits comfortably under the hood of the Audi S5, producing 333 horsepower and an exhilarating 325 lb-ft of torque, to propel the S5 Coupe to 60 mph in just 4.9 seconds. Experience the heart and soul of Audi performance cars through the sport-tuned suspension that is ready for the street or the track. While most automotive manufacturers want you to upgrade your engine with after-market tricks, we developed a line of vehicles that require only your enthusiasm.

**ENGINE** // 3.0-liter supercharged TFSI® V6 engine developing 333 hp and 325 lb-ft of torque

**DRIVETRAIN** // quattro® all-wheel drive, available sport differential, six-speed manual transmission (Coupe only) or an available seven-speed S tronic® dual-clutch transmission

**CHASSIS** // S5 tuned sport suspension calibration, Audi drive select and available dynamic steering

**BRAKES** // 13.6” ventilated front disc brakes with S5 logo, 13.0” ventilated rear disc brakes

**PERFORMANCE** // Top track speed of 155 mph, acceleration from 0 to 60 mph in 4.9 seconds (Coupe) and 5.3 seconds (Cabriolet)
A5 Coupe and Cabriolet Premium featured highlights

- Singleframe® grille
- Xenon plus headlights with LED daytime running lights
- Automatic headlights
- Front fog lights
- LED taillights and rear fog lights
- Power-adjustable heated exterior side mirrors
- LED turn indicator lights integrated into the exterior side mirrors
- Heated windshield/washer nozzles
- Aluminum trim around exterior windows (windshield frame on Cabriolet)
- Dual exhaust outlets
- Three-zone automatic climate control
- Three-spoke multifunction steering wheel
- Tilt and telescopic manually adjustable steering column
- Illuminated locking glove compartment
- Leather-wrapped shift knob
- Folding and sliding front center armrest with height adjustment
- Aluminum door sill inlays
- Front and rear football, LED lighting
- Ambient LED interior lighting
- Power windows with one-touch up/down operation and pinch protection
- Panoramic tilting sunroof
- Leather seating surfaces
- Two-way power front seats and four-way power lumbar adjustment for driver
- Split folding rear seatbacks
- Audi concert radio with ten speakers and single CD player
- SiriusXM® Satellite Radio with 90-day trial subscription
- SD card slot with 1GB capacity (ideal slots if equipped with MMI® navigation plus)
- Audi music interface with iPod® integration
- BLUETOOTH® wireless technology preparation for mobile phone
- Garage door opener (HomeLink®)
- Cruise control with coast, resume and accelerate features

Available packages and stand-alone options

- MMI® navigation plus package
- 18” 5-arm dynamic design wheels
- Heated front seats
- Dark Brown Walnut Wood decorative inlays
- Fine Grain Ash Natural Brown Wood decorative inlays

1. SiriusXM® Satellite Radio and Traffic subscriptions sold separately or as a package after trial expires. SiriusXM® Satellite Radio service available in select markets. Subscriptions are governed by SiriusXM® Customer Agreement (see www.siriusxm.com) and are continuous until you call SiriusXM® to cancel. SiriusXM® U.S. Satellite Service available only to those 18 and older in the 48 contiguous U.S.A., D.C. and Puerto Rico (with coverage limitations).

2. MMI® navigation plus depends on signals from the worldwide Global Positioning Satellite network. The vehicle’s electrical system and existing wireless and satellite technologies must be available and operating properly for the system to function. The system is designed to provide you with suggested routes in locating addresses, destinations and other points of interest. Changes in street names, construction zones, traffic flow, points of interest and other road system changes are beyond the control of Audi of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible, therefore you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested MMI® navigation plus route. For mapping updates please see your Audi dealer or call 1-800-FOR-AUDI for details.

3. Requires compatible device.

4. High-performance tires are designed for better performance and handling in warm climates. When driving in cold, snowy or icy weather, you should equip your vehicle with four all-season or winter tires, to help ensure better traction under those conditions. We suggest you use the Audi-recommended winter or all-season tires specified for your Audi. High-performance tires also have a lower aspect ratio that aids performance and handling. Driving over rough road surfaces, as well as debris, curbs and other obstacles, can cause serious damage to wheels, tires, vehicle body and suspension parts. Be careful to avoid road hazards and reduce your speed, especially if your vehicle is equipped with high-performance tires. Please also remember when making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than others. Finally, these tires are more susceptible to damage. Check the tire pressure at recommended levels.一族
Premium Plus

The following highlighted features of the A5 Coupe and Cabriolet Premium Plus add to or replace the highlighted features of the A5 Coupe and Cabriolet Premium:

- Power-adjustable, auto-dimming, heated exterior side mirrors with memory
- S line® exterior appearance
- Auto-dimming interior rear view mirror with digital compass
- S line® door sill inlays
- Drive seat memory
- Audi advanced key—keyless start, stop and entry1

Available packages and stand-alone options:

- Comfort Seat package (Cabriolet)
- Sport package
- Sport plus package
- S line® Competition package (Coupe)2
- Technology package
- 18” 5-arm dynamic design wheels
- 19” 10-spoke Audi exclusive design wheels
- Bang & Olufsen Sound System with 14 speakers and 505 watts (12 speakers on Cabriolet)
- Dark Brown Walnut Wood decorative inlays
- Fine Grain Ash Natural Brown Wood decorative inlays

1 Some Audi models are equipped with a keyless ignition feature. The details as to how the system works can vary, and Audi owners should consult their owner’s literature or an authorized Audi dealer if they have further questions about the operation of this feature. Please note that Audi warns against leaving the vehicle unattended with the engine running, particularly in enclosed spaces.

2 Delayed availability.

3 High-performance tires are designed for better performance and handling in warm climates. When driving in cold, snowy or icy weather, you should equip your vehicle with four all-season or winter tires, or consider the use of full-time all-wheel drive, to take advantage of better traction under those conditions. We suggest you use the Audi-recommended winter or all-season tires specified for your Audi. High-performance tires also have a lower aspect ratio that aids performance and handling. Driving over rough road surfaces, as well as debris, curbs and other obstacles, can cause serious damage to wheels, tires, vehicle body and suspension parts. Be careful to avoid road hazards and reduce your speed, especially if your vehicle is equipped with all-season tires. Please also remember when making any turns that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than others. Finally, these tires may wear more quickly than other choices. It is important that the inflation pressure is regularly checked and maintained at recommended levels.
The following highlighted features of the AS Coupe and Cabriolet Prestige add to or replace the highlighted features of the AS Coupe and Cabriolet Premium Plus:

- Adaptive xenon plus headlights with LED daytime running lights
- MMI® navigation plus with voice control system* (voice control not available on Cabriolet)
- Audi connect® with Google Earth™ mapping service2
- Adaptive xenon plus headlights with LED daytime running lights
- MMI® navigation plus with voice control system1 (voice control not available on Cabriolet)
- Bang & Olufsen® Sound System with 14 speakers and 505 watts (12 speakers on Cabriolet)
- Parking system with rear view camera
- Audi side assist
- Aluminum Trigon decorative inlays
- 18" 10-spoke Audi exclusive design wheels with 245/40 all-season tires6
- Audi camera® with Google Earth™ mapping service
- Audi side assist
- Parking system with rear view camera
- Parking system with rear view camera
- Parking system with rear view camera

\(^1\) See Infotainment /Technology section of the Featured Content page for important information regarding MMI® navigation plus, optional SiriusXM® subscriptions, BLUETOOTH®-compatible device and Audi connect®. Voice control not available for all Cabriolet models.

\(^2\) Delayed availability.

\(^3\) See Options page for important safety information regarding summer performance tires.
In addition to the many packages available for your Audi A5, there are also a host of a la carte options to outfit your vehicle. From a variety of wheel offerings, a premium audio system and elegant interior trims to creature comforts like heated front seats, there's an option to help better complement your lifestyle.

18" 5-arm dynamic design wheels with 245/40 all-season tires
(available on all models)

19" 10-spoke design wheels with 255/35 summer performance tires
(available on Premium Plus and Prestige models)

Dark Brown Walnut Wood decorative inlays
(available on all models)

Fine Grain Ash Natural Brown Wood decorative inlays
(available on all models)

Heated front seats
(Optional on Premium models)

Bang & Olufsen® Sound System with 14 speakers and 505 watts
(12 speakers on Cabriolet)
(Optional on Premium Plus models)

1 Performance tires are designed for better performance and handling in warm climates. When driving in cold, rainy or icy weather, you should equip your vehicle with four all-season or winter tires, which offer better traction under those conditions. We suggest you use the Audi-recommended winter or all-season tires specified for your Audi. Performance tires also have a lower tire volume, which may result in reduced rolling noise and slightly reduced maximum speed. Please also remember when making your selection that, while these tires deliver responsive handling, they may have less comfort and road noise than others. In contrast to the influence present in typically交通大学 attended at recommended tire inflation pressure.

High-performance tires are designed for better performance and handling in warm climates. ### Notes

1. Airbags are supplemental restraint only and will not deploy in all crash circumstances. Damage to safety belts and seat children only in the rear, using restraint systems appropriate for their size and age. 2. Delayed availability.
The new method behind cool.

We've never felt the need to “compete,” but we don’t shy away from a challenge either. While we’ve designed vehicles for the race-track, we know that sometimes you want the racetrack feel without the need for a pit crew to manage your daily commute. This is part of why we developed the available S line® Competition package.  The S line Competition package’s already aggressive appearance is accentuated by Gloss Black exterior side mirror housings, side sills and rear diffuser surround. Inside, you’ll find Black leather/Perforated Alcantara® seating surfaces embossed with the S line logo and available S line Competition package exclusive aluminum manual shift knob. You’ll feel strapped in and ready for the green flag or the green light! So take hold and get ready to receive the attention of passers-by and fellow commuters alike.

---

1. MMI® navigation plus depends on signals from the Worldwide Global Positioning System (GPS) satellite network. The accuracy of the vehicle’s position may be affected by many factors including topography, building materials, tunnels, bridges, GPS satellite availability and GPS satellite updating cycles. GPS satellite availability is limited to the U.S. and other select countries. Exact vehicle position may not be available if signals from the GPS satellites are not available or are blocked.MMI® navigation plus utilizes the world’s most advanced navigation software, which is continually updated to ensure optimal route guidance. The system is designed to provide turn-by-turn navigation instructions to help you reach your destination. The system uses the digital maps to calculate the best route to your destination or to a previously programmed location. The system is designed to display turn-by-turn directions or guided navigation instructions. It is designed to guide you to your desired location while accommodating live traffic data, along with additional considerations like fuel costs, distance, tolls, toll roads, and pedestrian crossings to help optimize your route. The navigation system requires a GPS satellite signal and access to the internet to perform optimally. Please consult your owner’s literature or an authorized Audi dealer if you have any questions about the operation of this feature. Please note that vehicle navigation systems are available in select regions only. A subscription and/or additional purchase may be required for this feature. Exact navigation data is provided by HERE, which may change over time. 1. Some Audi models are equipped with a keyless ignition feature. The details as to how the system works can vary, and Audi owners should consult their owner’s literature or an authorized Audi dealer if they have any questions about the operation of this feature. Please note that vehicle navigation systems are available in select regions only. A subscription and/or additional purchase may be required for this feature. Exact navigation data is provided by HERE, which may change over time.

---

2. Always pay careful attention to the road, and do not drive while distracted. The features and technologies discussed above are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The Wi-Fi® hotspot feature is intended for passenger use only.

3. SiriusXM® Satellite Radio and Traffic subscriptions sold separately or as a package after trial expires. SiriusXM® Traffic service available in select markets. The SiriusXM® Traffic service requires a subscription sold separately and is continuous until you call SiriusXM® to cancel. SiriusXM® U.S. Satellite Service available only to those 18 and older in the 48 contiguous U.S.A., D.C. and Puerto Rico (with coverage limitations).

4. Requires compatible device.
Compact cargo center
Your gear won’t take up valuable trunk space with our aerodynamic carrier that offers a generous 16.95-cu-ft capacity. Size: 81” long, 30” wide, 15” high.  

Value trim caps
This dark, aerodynamic cap complements the unique design of the wheels on your A5 and A5 Sportback. It is also available in Silver or Anthracite.

Audi Genuine Alloy Wheels
Experience the high-performance beauty of this eye-catching A5 logo. An impressive, clean drop-center deep-dish design makes these 15-spoke design wheels the perfect complement to the your A5. 15-spoke design wheels help reduce wind resistance and allow for more precise handling. Shown in Black, also available in Silver or Anthracite.

Audi S5 logo.
Emblazoned with the iconic Audi rings, these handsome caps complement the unique design of the wheels on your S5. Experience awe-inspiring performance with Audi Genuine Alloy Wheels.  

Audi genuine electronics accessories
The illuminating technology that graces each Audi vehicle provides unmatched convenience for Audi genuine electronics accessories. Similarly, all of these accessories are impressively advanced and matching. Our audio options help you enhance your listening pleasure. Other accessory options help promote more convenient and comfortable travel. All are designed and tested to help ensure compatibility with your Audi vehicle. Add distinction, versatility and the ultimate in self-expression with Audi Genuine Accessories. Whether you load the cargo carrier with climbing gear or add a set of stylish new wheels, we have the accessories that will help enhance every facet of your lifestyle. When purchased from an authorized dealer, all pieces are covered for the greater of: (1) the accessory component’s coverage period of 12 months or 12,000 miles, whichever occurs first; or (2) the remainder of the Audi New Vehicle Limited Warranty, whichever occurs first. For the 2012 model year, the coverage period is 12 months or 12,000 miles, whichever occurs first.

Audi genuine electronics accessories
Help protect what you love. Audi Guard Comfort and Protection Accessories offer protection, practical items that help keep your Audi in pristine condition. Choose from such useful items as trunk mats that help make clean-up quick and easy, or an easy-to-use storage cover that helps shield the vehicle. Use them all to help reduce wear and tear and keep the vehicle looking new—inside and out. All are engineered to stip out Audi standards, so you can be assured of their quality and durability.
