If it was this easy, it wouldn’t be an Audi.

When you were a kid, you probably felt quite proud when you completed a model kit. We understand. At Audi, it takes countless hours for a single Audi to go from idea to design to roadworthy, and that’s time we are very proud to devote. Our obsession for detail, commitment to premium fit and finish and passion for unparalleled engineering go into every model. It’s the kind of discipline that the word “painstaking” was invented to describe. Not to say it’s a chore—no, assembling an Audi is a labor of love, and it shows every time you sit in one, engage the ignition and nudge the accelerator. Creating an Audi isn’t easy, but the results help define what Audi means to the people who drive one.
The door of perception.

It’s said that, when one door closes, another one opens. It sounds as if whoever said it spent some time at an Audi research and development facility. After all, while you’ll open and close the door on your Audi thousands of times without thinking about it, we’ve obsessed about it for you, in detail. Not just about the reliability of it opening and closing, but on the proper weight that will make it more pleasing to close. How the locks should click when they are engaged. The optimal acoustic placement for the speaker port. There are the hinges too, of course. And the door itself, which we designed to take the brunt of side-impact collisions, and several dozen other safety considerations (to say nothing of the countless other components, processors, sensors, window features and the inner workings most people will never see). Our doors are more than a symbol of welcoming you into your vehicle, they are products of Audi engineering, and the very perception of Audi hinges on them as much as our hinges help support the door.

Our reputation hinges on the quality of things you don’t see.
quattro® HAS MAINTAINED ITS GRIP ON OUR THINKING AND THE ROADS WE TRAVEL.

For more than 30 years, Audi has been focused on quattro® all-wheel drive. During that time, it has evolved into an overarching idea of performance, a technological system of ratios, power delivery and driving dynamics working seamlessly together, orchestrated through the drivetrain, providing power where and when it is needed most. In many ways, this has been a three-decade drive, from the Alps to the autobahn—and points beyond. You’ve seen quattro® capabilities in the way we dominated the World Rally Championship for years, in the grip you have in inclement weather, and in the variable power distribution you enjoy in good conditions.

For more than 30 years, and with over five million quattro® systems on the road, we have continued to refine the technology, developing an available rear sport differential to help maximize performance and available torque vectoring to assist with cornering traction while helping to improve handling. We’ve boldly stuck to what worked while the world was trying to catch up, and we built on it.

Quattro® directs the amount of torque required to suit the job at hand.

When we think of a good idea, it sticks.

1. When driving during cold, rainy, snowy or icy weather conditions, ensure that your vehicle is equipped with appropriate all-season or winter tires. Even with appropriate tires, you must always drive in a manner appropriate for the weather, visibility and road conditions.
Always obey all speed and traffic laws. See www.fueleconomy.gov for EPA estimates and emissions data. Your mileage and emissions will vary and depend on several factors, including your driving habits and vehicle condition.

FSI®
The FSI direct injection fuel system directly injects fuel into the combustion chambers at precisely managed times and depths. What that means for drivers is that a fully homogenized intake charge helps increase power while also reducing fuel consumption and emissions, making efficiency more powerful.

TFSI®
At Audi, TFSI represents a combination of two of the brand’s core areas of expertise—direct injection and forced induction. By adding turbocharging or supercharging to FSI direct injection, the pressurized intake charge is cooled by directly injected fuel, thus achieving efficiency and performance combined with higher compression ratios—previously only attainable by naturally aspirated engines.

TDI®
A turbocharged, fuel-sipping variant, our TDI® clean diesel engines deliver uncompromising Audi performance with bold efficiency. Yes, it gets better mileage per gallon than comparable gasoline engines, but also produces more low-end torque, which is best expressed in the elasticity you have when passing in the 30- to 60-mph range.

There is an art to fitness. Yes, there are some who go for the massive, sculpted muscle look. But there is something more compelling out there for those with more refined tastes. The kind of sculpted efficiency found in Audi engines elevates the driving experience through smaller, finely tuned forced-induction engines. For the drive to feel lean and precise, we’ve shaved off unwanted sounds. Sure, large numbers might distract some, but a champion impresses with its grace, power and athletic balance—captured in the right suspension setting, a torque-vectoring corner. Audi engineers shape power that celebrates a true dedication to craft. It means strength that pulses at the moment of acceleration, provides a true, quick response as you change lanes, and burns the most routine cloverleaf into a joyful application of performance handling. This is the art of maximum fitness, to the point where others just feel a little flabby.

ENGINEERING POWER IS MORE THAN JUST ADDING MUSCLE.

The obsessive engineering of maximum fitness.
ELEPHANT SKULL

How nature solved the apparent conundrum of an elephant’s skull didn’t escape the notice of Heinrich Timm, the longtime lead engineer for Audi. The weight of the tusks and the general size of an elephant’s head would seem to make it impossible for the animal to actually be able to carry it. But the design genius behind the elephant’s skull is to make it lightweight yet strong. The predominantly hollow design is buffered by the connective bone walls, which act as strong, weight-bearing cells. Audi designers used that idea when building our aluminum and steel structures. Reducing weight, yet enabling strength.

THE ELEGANT STRUCTURE OF NATURE BECOMES A BLUEPRINT OF EFFICIENCY.

It seems strange to say that, while we build strong, complex and high-performing machines, we’re naturalists at heart. Then again, it might not be that unusual, seeing how nature itself builds strong, complex and high-performing machines as well. When we developed the thinking behind our ultra® lightweight technology initiative, we knew that nature would serve as an inspiration to greater structural efficiency. Take the structure of the elephant skull pictured here. It has to be lightweight, yet capable of carrying a heavy load. It’s porous, but its structure is such that it enhances its stability and strength. We do the same, for example, with aluminum. Positioned one way, aluminum materials can be flexible. Positioned another, they are strong and rigid, and help give better support. We also looked to bamboo, which is strong at the conjoined areas (nodes), and flexible along its stem. Our designs allow for both rigidity and flexibility where each is most needed, and for efficiency overall. As we continue to develop strategies to improve the performance aspects and efficiency of our vehicles, we don’t shy away from the world around us. We boldly engage it even closer still.

How studying elephant skulls makes for superior handling.

Always pay careful attention to the road, and do not drive while distracted. The features and technologies discussed above are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The Wi-Fi® hotspot feature is intended for passenger use only. Features and technologies listed are not available on all models. The voice control feature is not available on Cabriolet or Roadster models.

MMI® navigation plus depends on signals from the worldwide Global Positioning Satellite network. The vehicle’s electrical system and existing wireless and satellite technologies must be available and operating properly for the system to function. The system is designed to provide you with suggested routes in locating addresses, destinations and other points of interest. Changes in street names, construction zones, traffic flow, points of interest and other road system changes are beyond the control of Audi of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible, therefore you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested MMI® navigation plus route. For mapping updates please see your Audi dealer or call 1-800-FOR-AUDI for details. Features and technologies listed are not available on all models.
Even in the dark, you know when you’re staring at an Audi. In fact, it might just be love at first sight. That’s because, instead of cursing the darkness, we celebrate the light. Available full LED headlights stand out from the rest: their color intensity is engineered to be reminiscent of daylight. But while we illuminate the night, we don’t forget the day—so we made our LED daytime running lights to look even more dramatic. Now featuring a sleek diode design that gives us the freedom to elegantly reshape our signature style, Audi LED lighting is once again ours. It is an efficient, beautiful way to help you see and be seen from dusk to dawn and back again. Look deep into our eyes, and you might just see the soul of a company.
CLEAN, BEAUTIFUL DESIGN COMES FROM DEDICATED CRAFTSMEN UNAFRAID OF GETTING THEIR HANDS DIRTY.

Our hands give you shade and sanctuary. Our hands give you comfort and control. You might not sense our hands nearby, but our hands know exactly what you feel. That’s because we’ve been there. After all, our hands crafted a customized world that’s dedicated to control, comfort and entertainment. We’re talking, of course, about the cabin of your Audi vehicle. Optimized luxury, designed by committed craftsmen who had you in mind when they chose the leather seating surfaces, created the contoured seats or provided the refinement of ergonomic design and an available more intuitive MMI® system. There are small touches that help simplify the overall design, and there are large statements to help you feel at ease. It is your Audi interior, shaped by the kind of people who know you want to experience luxury firsthand.
You have to weather adversity to know things like this.

Think of it this way—if it rains, would you notice a dry side view mirror? Maybe not, but compared to one with beads of rain on it and distorted reflections, you would. It’s a little thing, perhaps, but these little things are part of our deep obsession with crafting a premium driving experience.

We design our exterior side mirrors with small sills to channel water along their upper edge, helping leave your view unobstructed. We also design our windshield moldings with channels that allow rain water to efficiently run off instead of returning to the windshield wiper path. These are small touches, thought of by engineers and crafted by designers who don’t necessarily call attention to their skills. Instead, these details reflect a commitment to quality that you might never notice—until a moment of bad weather or adversity, when you might. But don’t worry. We don’t mind if you don’t notice us, now and then.
Either think about the future, or make history.

SUPREMELY PRACTICAL LUXURY WITH A SUNNY KIND OF ENERGY.

Talking about a better future is easy. After all, how can you be held accountable for something that never arrives? But if you really want to affect it, to make history, you have to do more than talk. Enter e-tron®. It’s not the first plug-in electric hybrid to the market, but we are making it the most forward-thinking Audi ever produced. For example, we will be including a level 2 charger with our A3 Sportback e-tron PHEV for qualified owners who want to drive on electricity as much as possible.1 We also plan to offer unique sustainable energy offerings like an available solar program to help provide power to your home and vehicle. It’s not just practical, it’s premium too, in style, in performance and in fit and finish, like any other Audi vehicle. But more than that, it will be Audi making smart technology smarter, with adaptive kinetic energy-harnessing when you brake, and better performing than what came before it. With the Audi e-tron vehicles, we’re saying the future is now.

1. 240-volt and 320-volt chargers, hardware and cabinet included with the vehicle. Installation and wiring costs are extra, and will vary. See your participating dealer for details.
The little things
that add up
to a long-
term love.

When you are attracted to something, the effects are immediate, the domination, total. For a relationship to last, though, it must move beyond that passionate initial phase. It's what comes next that turns a bright flame into an eternal torch. That's why Audi doesn't simply design premium vehicles for the short-term, but offers an entire experience that we hope lasts a lifetime. Do you want to customize your Audi? We offer Audi exclusive materials and colors. Do you want care-free service options? Audi Care is available. MMI® updates, trial offers for Audi connect®, a full suite of available Audi driver assistance technologies—these might not be the reasons why you fell in love with an Audi, but they are, perhaps, the things that help keep the heart fires stoked.1

1 Optional features and technologies listed are not available on all models. See Infotainment/Technology section of the Featured Content page for important information regarding MMI® navigation and required SiriusXM® subscription.
Inspirations that build an icon.

The alchemy needed to build an automotive icon is elusive. Sure, it’s found, partly, on an assembly line, with committed artisans taking pride in every stitch they oversee. It’s also on a drafting board, sketched by visionaries looking to further expand what we look for in automotive design lines. But it’s also in the countless inspirations, ones little and large, that not only capture a bold thought or striking idea, but execute them. Examples of these can be found in the foundational stories we tell about our company and our vehicles. These stories show how an abstract idea can turn into a powerful, sculpted machine, and then how that machine can help forge an iconic reputation for a brand. Out of the inspirations we find in engineering, art and the large world of ideas, we have created a fearless, iconic company of substance and luxury: Audi.

A BIGGER HAVING GROWTH. IN ENOUGH ROOM FOR YOUR A CHANCE TO ENGINEERING NARRATIVE ROAD AHEAD.

Q7, SPACE IMAGINATION EXPAND, FOR YOUR IS TRUTH FOR THE
We do not follow design trends. We set them.

Luxury and utility
loom large in our world.

It’s no coincidence the Audi Q7 accommodates more than one great quality. You see, the idea Audi engineers had while designing the Q7 was to create a beautifully styled limousine for seven, with the SUV versatility you’d expect. And while limousine may sound like an exaggeration, this is the kind of luxury not normally found in an SUV. It may be the grain of the burled Walnut Wood inlays, or the standard leather seating surfaces that are as inviting to the eye as they are comfortable to the body. Perhaps it is the available Audi connect® with mobile Wi-Fi® for up to eight passenger devices, the rest of the technological suite available in this vehicle, the standard quattro® all-wheel drive, or the variety of engines you can choose from to power it. Whatever it is, you might feel a bit spoiled as you drive down the highway, but we don’t think there is anything wrong with that.

1 Always pay careful attention to the road, and do not drive while distracted. The features and technologies discussed above are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The Wi-Fi hotspot feature is intended for passenger use only.
Enlighten

A new light on illumination just happened to be a design boon.

There’s more than a little brilliance on display.

For most people, the sport utility vehicle is for sport and utility. At Audi, we feel the same way, but that doesn’t mean you and your party don’t deserve style, nor does it mean you have to compromise your need for performance. We constantly strive to illuminate the automotive world with new efficiencies and design philosophies. So, at Audi, we don’t think being enlightened is enough—we also need to be enlightening. It’s part of why you’ll see the signature LED daytime running lights leading the Audi Q7. And why the available Offroad Style plus package, featuring stainless steel underbody protection and impressive 20” or 21” wheels, ensures that you’ll stand out brilliantly in any crowd. It’s just another part of the attention we pay to the balance and composition of every vehicle we make.
Cargo capacity
Perfect for the family road trip or the golf weekend, the Q7 brings the goods when it comes to bringing the luggage. With 10.9 cu ft of cargo capacity behind the third row, and up to 72.5 cu ft with the second and third row folded down, there’s room for just about anything you’d want to pack, and most likely room to spare. Leaving you with only one worry—where you want to go.

Seven seats
We also take comfort seriously for all seven potential occupants in the Q7, with sumptuous, supple leather seating surfaces and 12-way power adjustable front seats, as well as reclining and sliding second-row seats. We take functionality seriously too, with a flexible cargo area that can be easily folded (without removing the head restraints) to provide extra cargo capacity, while an overall design flexibility allows for 28 possible seating and cargo configurations.

Standard in the second- and third-row outboard seating positions, the Lower Anchors and Tethers for CHildren (LATCH) system, combined with the possibilities offered by the Q7 seating configurations, gives you flexibility when your children are your passengers.

A retreat of considerable magnitude.
If you’re going to spoil yourself, why not do it in a big way? That was our intention when we dressed the seven-passenger Audi Q7—all 144.1 cu ft of its interior space—to the nines. Beautiful leather seating surfaces, Walnut Wood inlays and plush carpeting adorn the interior, complementing one another perfectly, and elevate the interior of the Q7 into a truly magnificent space. Add in the many combinations of exquisite interior choices, and you can see why getting away from it all is something we take seriously.
Craftsmanship

We’ve ensured that every stitch represents the detail that we put into every aspect of an Audi vehicle. The small touches that make up a grand gesture.

When a statement as impressive as the interior of the Audi Q7 is made, it’s easy to forget that it’s the details that are ultimately responsible for ensuring that it makes an impact. Luxurious touches, like a generously sized, leather-wrapped steering wheel, supple leather seating surfaces and soft-touch materials throughout, provide a worthy, and plush, starting point, while offering a glimpse of our unwavering dedication to craftsmanship. Further embellishing this detail-obsessed mantra is the elegant Alu-optic trim, perfectly positioned around the dash, as well as the beautifully appointed leather armrest and shifter. Include available features that let you do everything from fine-tune your personal comfort to bask in stunning natural light, and what you have is a truly compelling sum that owes everything to its meticulously crafted parts.

Four-zone automatic climate control

The available four-zone automatic climate control has four distinct climate zones. The driver, front passenger and second-row outboard rear passengers can set their perfect level of heating or cooling with a simple twist of a dial.

Panoramic sunroof

The available panoramic sunroof brings seemingly endless light to your ample interior cabin. The front and rear glass elements can be tilted, the front panel can be opened, and, if you should need a break from the sun, the sunscreen feature provides a power sunshade in the front and a manual sunshade in the rear.

Ventilated front seats

The available ventilated front seats offer three pre-programmed speeds of cooling, which, along with front seatback nets and useful storage compartments in the doors, center console and cargo area, provides comfort and convenience throughout.

All-around confidence

Just like life, the road can throw you a curve. So throw one right back with the superior grip and control of quattro® all-wheel drive. It helps provide the legendary performance and confidence you would expect from Audi, no matter if you're commuting in the city or crisscrossing the country. This is advanced engineering you can live with.

1 When driving during cold, rainy, snowy or icy weather conditions, ensure that your vehicle is equipped with appropriate all-season or winter tires.

Even with appropriate tires, you must always drive in a manner appropriate for the weather, visibility and road conditions.

quattro® all-wheel drive

With quattro® you can “read” the road, sensing changes in the surface beneath the wheels and adjusting their grip accordingly. So when driving conditions become more demanding, quattro® adapts to deliver precisely distributed power to where it’s needed to handle the change in the terrain.

A gripping story of twists and turns.

The luxurious Q7 was designed with unruly roads in mind. That means, luxury aside, those gravel-strewn switchbacks and steep, graded highways are natural terrain for the quattro® all-wheel drive system. The quattro® system is designed to help provide maximum grip and optimized power delivery for practically all road conditions. So while your commute may not be as thrilling as a trip to the summit, you can be confident in the balance and enhanced performance quattro® offers day-in and day-out, while giving you no good excuse for taking a snow day.

Seasonal stability

There is a reason quattro® all-wheel drive is a friend in foul weather. Under normal driving conditions, the center differential splits torque at a ratio of 40:60, front to rear, but as conditions change and become more challenging, the ratio is optimized to help maximize grip.

Tell us what you’re looking for and we’ll deliver you to it.

Don’t reach—relax. While touchscreens are seemingly everywhere, they don’t need to be in your vehicle. With available Audi connect®, you may never have to reach out again. Thanks to Google Voice Local Search, Audi connect allows you to quickly search Google™ by simple voice commands (use only when the car is stationary). The crisp display is mounted farther up, closer to the windshield and near your sight line to the road ahead. For those times when you are feeling tweaky, we’ve placed toggle buttons near the gear shifter, where your hand naturally rests when using them. So while other automobile manufacturers still want you to reach out, we’ve found a new way for you to make information a lot more accessible while your hands are on the wheel.

1. MyAudi features

Both the point-of-interest search with voice control means that the digital wares is with you at every journey.

1. Search for places of interest around you.
2. Get information about current events, exciting locations and places of interest at your travel destination, set them as your area of interest or other chosen location instantly.
3. Plan from your personal computer. Send your desired destinations to your vehicle ahead of time and access your route from your vehicle later.

1. How to plan your route to help avoid traffic.
2. Get traffic information overlaid onto available 3D satellite imagery to enable a true aerial view of your route, and use the MMI navigation plus system to highlight your route to help avoid traffic.

1. The point-of-interest search with voice control means that the digital wares is with you at every journey.
2. Search for parking in your area of interest, check space availability and set your vehicle as a destination to help navigate directly to the garage entrance.
3. Get information about current events, exciting locations and places of interest at your travel destination, set them as your area of interest or other chosen location instantly.
4. Discover landmarks in your area of interest, set them as your destinations, and let your vehicle lead the way as you explore the area around you.
Bang & Olufsen® Advanced Sound System

Dedicated to the idea of “precise music reproduction,” Bang & Olufsen® has created a sound engineer’s dream. An available 1,000-watt advanced sound system brilliantly re-creates music using 14 enclosed speakers, including two acoustic lens tweeters, placed throughout the cabin. The system features revolutionary smartphone-sized ICEpower® amplifiers to supply power to all 14 speakers. Bang & Olufsen® is set on music reaching your ears by transcending the limits of audio technology. In other words, they design systems for the human heart as much as for the human ear.

Lend us your ear.

It’s been said that people only hear what they want to. That what they don’t like just goes in one ear and out the other. Well, for those people and everyone else, we’ve created a sound system that makes every note worthy of your eardrum’s full attention. From perfectly sculpted high notes to a crystal clear mid-range to deep-motion bass, the available Bang & Olufsen® Advanced Sound System is a veritable orchestra of engineering that fills the cabin with faithfully rendered, thrilling sound. Which shouldn’t be surprising at all, considering that Bang & Olufsen® and Audi sound engineers worked tirelessly to craft a perfect acoustic environment, and the ideal delivery system for it. So whether you’re the type that wants to be soothed by sound or the type that wants to be inspired by it, we promise, if you take a moment to listen, that what you’ll hear will be utterly impossible to ignore.

2,093 Hz

High note on a piano

Even at a frequency of 2,093 Hz, the equivalent of the double high C note found on a piano, the sound system clearly and effortlessly reproduces the sound, giving you front row seats to every symphony.

52 Hz

Low note on a kick drum

True bass tones are something you feel more than hear, and when a kick drum hits you with a frequency of 52 Hz, you definitely feel it. Knowing this, Audi sound engineers worked hard to find the ideal spot to house the bass, for an exceptionally realistic experience.

261 Hz

Singing middle C

At a frequency of around 261 Hz, you’ll find middle C. It is around this frequency that much of the brilliantly orchestrated sound is reproduced by the numerous, strategically placed speakers.

Unlike with high-frequency sounds, the brain cannot detect where low-bass frequencies are coming from, making it seem as if the sound is hitting both ears at the same time. Because of this, Bang & Olufsen® sound engineers had to design one system-fitted subwoofer to reproduce the kind of deep, cabin-filling bass that brings music to life.

We take efficiency lightly.

Another way we continue to share Truth in Engineering® with Audi fans across the world is by building power and performance from all our engines without compromise. With the options of two supercharged and lightweight V6 engines, and one TDI® clean diesel, we’ve done just that. It’s fair to say the Audi Q7 gives you more out of less with every drive.

280–333 horsepower 295–325 lb-ft of torque

3.0-liter TFSI® V6

Bolstered by the lively 3.0-liter TFSI V6 that produces 280 hp and a strong 295 lb-ft of torque, the Q7 starts with strength that comes standard. More performance-driven types can choose the S line® Prestige model with the 333-hp supercharged 3.0-liter TFSI V6 that generates an immense 325 lb-ft of torque.

Eight-speed Tiptronic® automatic transmission

As the perfect compromise between a dedicated manual and an automatic gearbox, the eight-speed Tiptronic® automatic transmission in the Audi Q7 offers eight optimised, carefully chosen gear ratios. Selected automatically or via its console-mounted shifter or steering wheel with available shift paddles, precise shifts are delivered without any sacrifice to the smooth action of the Tiptronic® automatic. A high final drive ratio allows optimization of lower gears, yet the transmission’s open range emphasizes lower engine rpm—particularly at highway speeds.

You’ve never seen rugged drive so smooth.

Though we’ve long been in the business of luxury vehicles, we didn’t want to leave you without an option for the less conventional journey. Hitting the slopes or heading out for a weekend in the desert isn’t for the faint of heart, and we designed a utility vehicle geared to match the passion you have for the outdoors. But there’s more to it than just grit, because we know you’ll also be driving in the city—so we gave utility the black-tie treatment. Powerful yet elegant, the Audi Q7 gives you the power you need to take on those exciting trips, as well as the look and feel of a daily city driver. An eight-speed Tiptronic® automatic transmission helps ensure that you’re getting optimum power delivery, and a variety of engines to choose from gives you the flexibility to make the drive suit your many needs.

Modern supercharger rotor-vanes have a 160° twisted shape for higher pressures and improved efficiency. And by using a four-vane design instead of a three-vane design, thermal efficiency and air-handling characteristics are improved without increasing the size of the supercharger unit.

824.025441538461763.0 3.0T transmission
We thought you should know: Diesel sports a greater power density than traditional gasoline, which means that a gallon of diesel fuel has about 15% more energy than a comparable amount of gas, and combusts more efficiently in the engine. The TDI® clean diesel engine available in the Q7 has achieved ultra-low emissions vehicle (ULEV) status in all 50 states while producing approximately 7% fewer CO₂ emissions than its comparable gasoline-fueled engine. And the brainy attributes don’t hide the brawn—in fact, Audi has dominated the 24 Hours of Le Mans over the years with TDI® prototype race cars. With these facts in mind, maybe you are thinking that a TDI® might be your choice—which goes to show that clean diesel really is fuel for thought.

TDI® clean diesel

Gasoline

15% more energy

Diesel

Increasing fuel efficiency

A new refinement process has reduced sulfur in diesel fuel by more than 97% in years past.

Piezo direct injection

Precise injections help lower the combustion noise normally associated with diesel engines, while optimizing the distribution of fuel in the combustion chamber, helping to further reduce exhaust emissions.

Variable vane turbocharger

Adding turbo power to clean diesel engines, our variable vane turbocharger produces impressive torque punch at mid-range highway speeds.

Combustion

Combining a high compression ratio with direct injection makes combustion more efficient, and produces emissions cleaner than those of engines with a lower compression ratio.

After-exhaust treatment

With innovative diesel particulate filters and the nontoxic AdBlue® reducing agent, we help eliminate up to 95% of diesel NOₓ emissions.

Increased fuel efficiency

Another way diesel creates fewer emissions is that it gets better mileage, up to 22% more mpg than comparable gasoline engines.

Variable vane turbocharger

Adding turbo power to clean diesel engines, our variable vane turbocharger produces impressive torque punch at mid-range highway speeds.

Combustion

Audi strives to constantly up the ante on the driver assistance tools built right into the vehicle. Whether it’s Audi side assist, which helps inform you if there are vehicles in the lanes next to you, or something as simple as our corner view camera system, which gives you a panoramic view of your surroundings as you park, it’s another testament to the effort that Audi puts into helping to keep you safe. All of this, along with six standard airbags, shows the effort we put into helping ensure that you’re not the only one keeping an eye on the road.

Driver Assistance
We’re solving problems before you even know you have them.

Parking system plus with corner view cameras
Helping to make parking a significantly easier task, the available parking system plus features front and rear acoustic parking sensors, as well as an available corner view camera system that gives you a panoramic view of what is ahead. For added benefit, the rear view camera offers selectable guidelines for parking in parallel or perpendicular spaces.

Six standard airbags
With six standard airbags that include front-impact, front side and side curtain airbags for both driver and outboard passengers and available rear side airbags helping protect the second-row outboard occupants, for an available airbag total of up to eight, you’ll feel practically surrounded. And that’s a good thing.

A little insight into the things you cannot see.

The available Audi side assist uses radar sensors and two different optical warnings to help keep the driver informed about what is approaching from angles behind and to the side of the vehicle.

Audi side assist uses radar sen- sors and two different optical warnings to help keep the driver informed about what is approaching from hard-to-see angles behind and to the side of the vehicle.

1 Airbags are supplemental restraints only and will not deploy in all crash circumstances. Always use safety belts and heed warnings only in the rear, using restraint systems appropriate for their size and age. 2 This is a dramatization and does not depict what will happen in a collision. All bags will inflate simultaneously in most single-vehicle accidents and, if multiple bags do deploy, they will not inflate simultaneously when deploying side curtains or airbags at the same time.
Enlightening to the very end.

Parting is no longer just about saying goodbye—it’s about expressing it in a brilliant way. Beautiful LED taillights on the Audi Q7 ensure that you’ll always leave people in want, whether you’re backing out of your garage or pulling away in the passing lane. This is even more true when you opt for the Sport Style plus package, featuring oversized dual oval exhaust outlets that are beautifully integrated into the lower bumper. And while we might be talking about what you see when the vehicle leaves, there is still much more to experience, so the next steps to ensure that you never have to say farewell to the Q7 again are up to you.

LED taillights

LEDs are among the most luminous taillights available. And, like Audi vehicles, they are efficient, technologically advanced and long-lasting.
Q7 3.0T Premium featured highlights

- Xenon plus headlights with LED daytime running lights
- Front and rear fog lights
- LED taillights
- Power-adjustable heated exterior side mirrors
- Aluminum roof rails
- Aluminum trim around exterior windows
- Power tailgate
- Body color lower body paint finish with chrome accents
- Flat-bottom dual exhaust outlets with polished tips
- Dual-zone automatic climate control
- Four-spoke multifunction steering wheel
- Auto-dimming interior rear view mirror with compass
- Leather-wrapped shift knob
- Folding front center armrest with height adjustment
- Ten beverage holders (six cup and four bottle)
- Front and rear footwell LED lighting
- Ambient LED interior lighting
- Power windows with one-touch up/down operation and pinch protection
- Leather seating surfaces
- Twelve-way heated power front seats, including power lumbar adjustment
- Sliding 40/20/40 split folding second-row seatbacks with pass-through and adjustable recline
- Split folding 50/50 third-row seatbacks with collapsible head restraints and one-action lowering from cargo area
- Audi premium sound system with 11 speakers and a single CD player with MP3 playback capability
- SiriusXM® Satellite Radio with 90-day trial subscription
- Audi music interface with iPod® integration
- BLUETOOTH® wireless technology preparation for mobile phone
- Garage door opener (HomeLink®)
- Cruise control with coast, resume and accelerate features
- Rain/light sensor for automatic windshield wipers and headlights

Available packages and stand-alone options

(for more details, refer to the Packages and Options pages)

- Cold Weather package
- Technology package
- Towing package
- Panoramic sunroof
- Rear-passenger thorax side airbags
- 19" 5-arm design wheels

Other highlights:

- Leather seating surfaces
- Twelve-way heated power front seats, including power lumbar adjustment
- Sliding 40/20/40 split folding second-row seatbacks with pass-through and adjustable recline
- Split folding 50/50 third-row seatbacks with collapsible head restraints and one-action lowering from cargo area
- Audi premium sound system with 11 speakers and a single CD player with MP3 playback capability
- SiriusXM® Satellite Radio with 90-day trial subscription
- Audi music interface with iPod® integration
- BLUETOOTH® wireless technology preparation for mobile phone
- Garage door opener (HomeLink®)
- Cruise control with coast, resume and accelerate features
- Rain/light sensor for automatic windshield wipers and headlights

For more details, refer to the Packages and Options pages.

1. SiriusXM Satellite Radio and SiriusXM Traffic subscriptions are sold separately as a package (after trial period and are continuous until you call SiriusXM to cancel). See Customer Agreement for complete terms and more information at www.siriusxm.com. SiriusXM Traffic service available in select markets. SiriusXM U.S. Satellite Service available in 48 contiguous U.S.A., D.C. and Puerto Rico (with coverage limitations). 2 Requires compatible device. 3 Airbags are supplemental restraints only and will not deploy in all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age. 4 All cargo should be properly secured before driving the vehicle. See your owner’s manual for details.
The following highlighted features of the Q7 3.0T Premium Plus add to or replace the highlighted features of the Q7 3.0T Premium:

- Power-adjustable, power-folding, auto-dimming, heated exterior side mirrors with memory
- Panoramic sunroof
- Driver seat memory
- MMI® navigation plus with voice control system
- Audi connect® with six-month trial subscription
- Color driver information system
- Bose® Surround Sound System with 14 speakers and AudioPilot® noise-compensation
- HD Radio® technology
- SiriusXM Traffic with four-year subscription
- Bluetooth® streaming audio
- Audi advanced key—keyless start, stop and entry
- Audi side assist
- Parking system plus with rear view camera (front and rear acoustic parking sensors)

Available packages and stand-alone options

(For more details, refer to the Packages and Options pages)

- Cold Weather package
- Warm Weather package
- Offroad Style plus package
- Towing package
- Rear-passenger thorax side airbags
- Running boards
- 19" 5-arm structure design wheels
- 20" 10-spoke V design wheels
- 21" 5-arm rotor design wheels (with Offroad Style plus package)

1. MMI® navigation plus depends on signals from the worldwide Global Positioning System network. The vehicle's electrical system and existing wireless and satellite technologies must be available and operating properly for the system to function. The system is designed for the use of an adult operator in locating addresses, landmarks and other points of interest. Changes in street names, new streets, recently closed streets and other changes and inaccuracies beyond the control of Audi of America, Inc. may affect the accuracy of street names, points of interest and other road system changes are beyond the control of Audi of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible. You may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested route. For mapping updates please see your Audi dealer or call 1-800-FOR-AUDI for details.

2. Always pay careful attention to the road, and do not drive while distracted.

3. The features and technologies discussed above are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The Wi-Fi® hotspot feature is intended for passenger use only.

4. Requires compatible device.

5. Some Audi models are equipped with a keyless ignition feature. The details as to how the system works can vary, and Audi owners should contact their owner's literature or an authorized Audi dealer if they have further questions about the operation of this feature.

Please note that Audi warns against leaving the vehicle unattended with the engine running, particularly in enclosed spaces.

6. Airbags are supplemental restraints only and will not deploy in all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age.
The following highlighted features of the Q7 3.0T S line® Prestige add to or replace the highlighted features of the Q7 3.0T Premium Plus.

- 20” 5-spoke Audi Sport design wheels
- Adaptive xenon plus headlights with LED daytime running lights
- Headlight washing system
- S line® exterior appearance
- Four-zone automatic climate control
- Aluminum door sill inlays
- Manual rear-side window (second row) and tailgate sunshades
- Panoramic sunroof with deep tint
- Ventilated front seats
- Corner view camera system
- Manual rear-side window (second row) and tailgate sunshades
- Panoramic sunroof with deep tint
- Ventilated front seats
- Corner view camera system

Available packages and stand-alone options
(for more details, refer to the Packages and Options pages)
- Cold Weather package
- Luxury package

Parking system plus with center touchpad

20" 10-spoke V design wheels with 275/45 all-season tires

F困难的 automatic climate control and second-row seat temperature controls

Limestone Gray Perforated leather

Airbags are supplemental restraints only and will not deploy in all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age. High-performance tires are designed for warm climates. When driving in cold, snowy, or icy weather, you should equip your Audi with four all-season or winter tires, which offer better traction and better performance. The tires may wear more quickly than others. It is important that the inflation pressure is regularly checked and maintained at recommended levels.
Emblematic to the progressive nature in which all our vehicles are engineered are the technologies and offerings available in a variety of packages to enhance the experience of driving an Audi vehicle. To prove that luxury has progressed, we invite you to explore the package that best outfits your Audi Q7.

Cold Weather package
Available on all models
- Heated second-row seats
- Heated steering wheel

Technology package
Available on Premium models
- Audi side assist
- MMI® navigation plus with voice control1
- Audi connect® with six-month trial subscription1
- HD Radio™ Technology
- Traffic information system
- Parking system plus with rear view camera

Offroad Style plus package
Available on Premium Plus models
- Gloss Black Singleframe® grille
- Matte Black trim around exterior windows
- Matte Black aluminum roof rails
- Offroad-style fender flares and side sills
- Full paint finish offroad-style bumpers with stainless steel skid plates front and rear

Warm Weather package
Available on Premium Plus models
- Manual rear-side window (second row) and tailgate sunshades
- Four-zone automatic climate control
- Panoramic sunroof with deep tint

Luxury package
Available on Prestige models
- Extended leather package (door armrests, pulls and center console are wrapped in leather)
- Alcantara® headliner

5 line® package
Available on 1/2/4 Prestige models
- 5 line® exterior appearance
- Headlight washing system
- Aluminum door sill inlays with 5 line® logo
- Brushed Aluminum decorative inlays
- Three-spoke multifunction steering wheel with shift paddles
- Black cloth headliner
- 5 line® leather-wrapped shift knob

5 line® interior package
Available on 3.0T Prestige models
- Heated second-row rear seats
- Brushed Aluminum decorative inlays
- Three-spoke multifunction steering wheel with shift paddles
- Black cloth headliner
- 5 line® leather-wrapped shift knob

20” 5 line® plus package
Available on Prestige models
- Gloss Black Singleframe® grille
- Matte Black aluminum roof rails
- Matte Black trim around exterior windows
- 20” 5-spoke Audi Sport design wheels (Titanium-finished) with 275/45 all-season tires
- 21” 5-arm rotor-design wheels (Titanium-finished) with 295/35 summer performance tires2

Sport Style plus package
Available on Prestige models
- Gloss Black Singleframe® grille
- Matte Black aluminum roof rails
- Matte Black trim around exterior windows
- Unique front and rear bumpers with polished oval exhaust outlets
- 21” 5-segment-spoke design (High-gloss Black-finished) wheels with 295/35 summer performance tires2

S line® package
Available on 1/2/4 Prestige models
- S line® exterior appearance
- Headlight washing system
- Aluminum door sill inlays with 5 line® logo
- Brushed Aluminum decorative inlays
- Three-spoke multifunction steering wheel with shift paddles
- Black cloth headliner
- S line® leather-wrapped shift knob

  - (optional on Prestige models)

- **Panoramic sunroof**
  - (optional on Premium models)

- **Bang & Olufsen® Advanced Sound System**
  - (optional on Prestige models)

- **Alcantara® headliner**
  - (optional on Prestige models)

- **Carbon decorative inlays**
  - (optional on Prestige models)

---

High-performance tires are designed for better performance and handling in warm climates. When driving in cold, snowy conditions, especially on snow-slick surfaces such as those found in mountainous areas, you should replace your summer tires with high-performance winter tires or all-season tires. High-performance winter tires typically perform better than all-season tires. During cool or moderately warm weather, a full set of winter tires is recommended. However, in many climates, use care in winter weather conditions, as heavy winter weather conditions may require the use of high-performance tires or all-season tires. Please consult your Audi dealer for advice. Also, when selecting tires, please make sure that the diameter and height (aspect ratio) are consistent with the vehicle’s performance capabilities. The speed rating of the tire must be appropriate for the vehicle. The speed rating is found on the tire information label. For more information on tire selection and care, refer to your vehicle owner’s manual.

1. MMI® navigation plus depends on signals from the worldwide Global Positioning Satellite network. The optional telecommunications service, Internet access, and available wireless data and voice communications are not available in all areas. The system is designed to provide you with suggested routes in locating addresses, destinations and other road system changes are beyond the control of Audi of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible, therefore you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested MMI® navigation plus route. For mapping updates please see your Audi dealer or call 1-800-FOR-AUDI for details. 2 Always pay careful attention to the road, and do not drive while distracted. The features and technologies discussed above are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The Wi-Fi® hotspot feature is intended for passenger use only. 3 SiriusXM Satellite Radio and SiriusXM Tra/uniFB03   c subscriptions are sold separately or as a package subscription and are continuous until you call SiriusXM to cancel. See Customer Agreement for complete terms and more information at www.siriusxm.com. SiriusXM Tra/uniFB03   c service available in select markets. SiriusXM U.S. Satellite Radio service is only available to those in the 48 contiguous U.S.A., D.C. and Puerto Rico (with coverage limitations). 4 Requires compatible device. 5 Some Audi models are equipped with a keyless ignition feature. The details as to how the system works can vary, and Audi owners should consult their owner’s literature or an authorized Audi dealer if they have further questions about the operation of this feature. Please note that Audi does not recommend the use of third-party smart key products with this system.

Standard

— Not applicable
Aluminum bike rack
This locking aluminum rack fits 20- to 60-mm bike frames with both wheels on the bike and helps keep the bike upright as you drive.

Big and boxy rear rack
This rack transports your equipment to the slopes easily and securely. The standard attachment (shown) holds two sets of skis or two snowboards. A deluxe attachment is also available.1

Compact cargo center
Your gear won’t take up valuable cargo space with our aerodynamic carrier that offers generous 16.95-cu-ft capacity. Size: 81” long, 50” wide, 10” high.2

20” 5-arm Pikes Peak wheels
With a distinctive two-tone design, this wheel is sure to draw attention to the already imposing Q7.3

Splash guards
Help protect the finish of your Q7 with custom-fit splash guards made of crack-resistant rubber. They are available in sets of two or four each.3

Q7 all-weather floor mats
Nubbed design helps protect your vehicle's floor and carpeting from water, mud, sand, and snow. Black mats are available in sets of two for front or rear. Showroom feature the Q7 logo.

Audi Genuine Accessories
Audi-designed solution that works for you.

1. Audi Genuine Accessories purchased from an authorized dealer are covered for the duration of the 4-year/50,000-mile limited warranty period or for 12 months/12,000 miles, whichever occurs first.1
2. The limited warranty on parts and workmanship for Audi Genuine Accessories purchased from an authorized dealer is 12 months/12,000 miles, whichever occurs first.1
3. Certain Audi Genuine Accessories are not covered by the vehicle’s limited warranty. For more information, please contact your authorized Audi dealer.

Audi Genuine Comfort and Protection Accessories
Help protect what you love. Audi Genuine Comfort and Protection Accessories offer functional, practical items that help keep your Audi pristine condition. Choose from such useful items as trunk storage covers that help shield your valuables. Whether you need to help reduce noise and dust, or protect your vehicle’s paint and trim from road salt, we have your Q7 protected.

Audi Genuine Electronics Accessories
The illuminating technology that graces each Audi vehicle provides the inspiration for Audi Genuine Electronics Accessories. Similarly, all of these accessories are impressively advanced and stylish. Our audio options let you enhance your listening pleasure. Other accessory options help promote more convenient travel. All are designed and tested to help ensure compatibility with the vehicle’s electrical systems, allowing you to enjoy every aspect of Audi technology with almost all your senses. Be assured of their quality and durability. These items are available at your authorized Audi dealer.
