In so many ways, it’s really all connected. How an Audi vehicle is engineered and designed isn’t simply a matter of physics or architecture, it’s a systematic compilation of disparate disciplines and ideas, forged into something iconic, sophisticated and powerful. What you feel behind the wheel is, in so many ways, a product of the knowledge and imagination of human history. The principles of Newtonian laws, sure—but also the grace of choreography, time-honored artisanal craftsmanship and the connectivity of modern life. The end result of these inspirations is your Audi—a thing meaningful, intuitive and strong. We employ the sum of our skills and understanding to reflect something that goes deeper than our machines.

Reflecting on what matters most to us.
It’s been said that the truth sets you free, so why not be honest with your desire to drive a luxury performance sedan like no other? What you’ll receive in return is our most sincere engineering effort, shaped to perfection in the form of the Audi A6. Clean, assertive lines mark the beginning of this authentic approach. From there, things get thrillingly candid with the seemingly relentless grip of available quattro® all-wheel drive and a range of engine options that solidify this vehicle’s reputation as an enthusiast’s car. And when every moment behind the wheel calls for exceptional performance, the Audi S6 unabashedly delivers, along with a heightened level of luxury and distinction. Clearly proof that our years of successful days at the track provide rewards beyond trophies. The stirring conclusion? A vehicle that commands attention from every onlooker, and inspires confidence with every drive.

We’ve reached a driving truth.
Light is a wave and an energy. It’s also a feeling. And an inspiration. Light is a physical manifestation and a spiritual metaphor. For Audi designers, light represents the soul of automotive design. We use it to give lines context, add a shimmering allure, or give shapes a visual texture or depth. In the sun or on a city street, the vehicle becomes luminescent, a seductive, ever-shifting configuration of energy itself, expressed in the brilliance of each design line.

The irrepressible actuality of light.
When this much emphasis has been placed on design, it’s not surprising that it takes more than one look to process what you’re seeing. You could say we doubled down, so to speak, when designing certain aspects of the Audi A6. Take, for example, a signature design feature we call the Tornado line. Bisecting the body profile, it runs strongly along the length of the vehicle to give it a bold, progressive contour that tells the world that this is the beginning of a narrative that is uniquely yours, and ensures that a first look will never be the last.

Notice how the design lines give a muscular yet refined look. Their interaction provides a changing scene as the angle of light changes throughout the day.

Designed for those who revel in double takes.
0908

2016 Audi A6 3.0T Prestige shown in Dakota Gray metallic with available equipment. Even the details should feel substantial.

With so much weight put on the importance of detail, it’s worth bringing some things to light, specifically, our signature LED lighting technology. Developed with purpose in mind, it nevertheless serves as an equally brilliant design feature. Just consider the form of the available full LED headlights. The design not only spreads light evenly across the road, but plays a central role in the vehicle’s character. It sets a precedent that just keeps developing as you notice the distinctive LED taillights, and how their design mimics the design of the daytime running lights. Let’s just say there’s a considerable amount of brilliance here.

Full LED headlights
Welcome to the future of lighting. Full LED headlights are available on the A6, helping ensure a long life and, with a near-perfect recreation of daylight, a brilliantly lit road ahead.

LED taillights
Brilliant and unmistakable, thanks to a distinctive look that mimics the design of the LED daytime running lights, the LED taillights not only help provide longevity, but a high degree of visibility.

The elegantly arched rear roof line flows effortlessly into the design lines running along the side, framing the taillights. From there, you’ll notice the new twin-integrated trapezoidal exhaust outlets.

Welcome to the future of lighting. Full LED headlights are available on the A6, helping ensure a long life and, with a near-perfect recreation of daylight, a brilliantly lit road ahead.

Brilliant and unmistakable, thanks to a distinctive look that mimics the design of the LED daytime running lights, the LED taillights not only help provide longevity, but a high degree of visibility.

2016 Audi A6 3.0T Prestige shown in Dakota Gray metallic with available equipment.
Confidence is what you feel on the inside.

There’s nothing like being in a position of power and poise. To take a moment to indulge in the wraparound curve of the Audi A6 dashboard. See how it integrates intuitively with the overall driver-centric layout. Discover a new level of distinctive design, from the available MMI® navigation plus, with its eight-inch display deploying out of and retracting into the dashboard, to the exquisitely crafted power front seats. Then sit back and admire the finely crafted decorative inlays displayed before you. Now imagine that you just shifted into Drive. This is what it’s like to confidently rule the road.

Decorative interior inlays
Adding a touch of warmth and sophistication to an already magnificent and beautifully crafted decorative inlays. Available in numerous finishes, they help create an interior space that speaks to your artistic sensibilities.

Individual contour front seats
Providing luxury beyond the status quo, available 18-way individual contour front seats put you in nearly full control of your comfort. A massage function with five different programs helps soothe on long drives, while a memory feature helps ensure that, once you or your front passenger find the perfect setting, it stay that way.

2016 Audi A6 3.0T Prestige shown with Atlas Beige leather and available equipment.
2016 Audi A6 3.0T Prestige shown with Flint Gray leather and available equipment.

Three-spoke steering wheel with shift paddles
Wrap your hands around your source of phenomenal control. The three-spoke multifunction steering wheel features shift paddles for quick, accurate shifts, a feature particularly useful when tackling turns on a twisty mountain road.

We aren’t ones to rest, even when we’ve achieved greatness. That’s why we keep pushing our innovative design team to analyze the way you interact with interior appointments, and continually strive to add style to function. With a choice of luxurious materials, a three-spoke multifunction steering wheel, and available four-zone automatic climate control, the Audi A6, you can create a unique cabin environment that expresses your own personal style. This is true for the smallest details too, such as an available heated steering wheel, or heated front seats with variable ventilation, which help keep you comfortable. All this is designed so that, when you get in, you’ll feel the kind of confidence that only comes from knowing you are in a luxury performance sedan that is unafraid to lead.

Reshaping the contours of luxury...again.

Four-zone automatic climate control
Take it as a clear indication that this interior is all about pleasing its passengers. With the available four-zone automatic climate control, almost every person in the vehicle has the ability to dial in their ideal temperature.
A showcase of our driving desire for superior engineering.

It should be apparent from our drivetrain options that we strive for engineering perfection. So no matter if you choose gasoline or diesel, and you experience the kind of dynamic performance people have come to expect of Audi. And with advanced transmissions and the road-gripping capability of available quattro® all-wheel drive applying all that power to the ground, it will feel as good as its engineering suggests.

**2.0L TFSI® engine**
whether you choose the available potent 333-hp supercharged V6 and its belt-driven supercharger or a 240-hp 3.0-liter TDI® clean diesel V6, the available quattro® all-wheel drive applying all that power to the ground, it will feel as good as its engineering suggests.

For details, see your dealer, go to audiusa.com or download the digital brochure.
For Audi engineers, power delivery is a primal thing. Sure, we sweat over balance, we obsess over precise handling, we shave off ounces and even pounds where we can to produce an improved response, quick acceleration and dynamic cornering, but in our hearts, at Audi, we want performance that inspires confidence. We have a heritage of racing success—and that helps us make the case—but it’s a true testament of engineering to make it work on the street, the highway, the commute. To engineer those moments where the rest of the vehicle seems to disappear and you are well into the moment of exhilaration, the light turns green, you accelerate. Performance—sculpted, engineered, Audi performance—makes its own case for the greatness of your vehicle.1

1 Always obey all speed and traffic laws.

Embodying the essence of performance.
2016 Audi S6 Prestige shown in Daytona Gray pearl with available equipment.

1 2016 EPA estimates and emission data not available at time of publication. See www.fueleconomy.gov for updated information. Your mileage and emissions will vary and depend on several factors, including your driving habits and vehicle condition. 2 Always obey all speed and traffic laws.

The Audi S6 was not made for the faint of heart. But you could have guessed that with just a glimpse of its commanding profile. Or by the roar of its engine that produces an unrelenting stream of power, while helping to save fuel using cylinder on demand™ engine efficiency technology. Of course, power is nothing without control. That’s where the legendary quattro® all-wheel-drive system comes into play, not to mention the performance-enhancing available sport differential and available dynamic steering. The end result? The ultimate power play for the brave.

S model quad exhaust system
Quad exhaust outlets and an available sport exhaust system come into play, so when you pass somebody on the highway, they’ll know exactly what kind of vehicle just left them in its rear view mirror.

Integrated rear decklid spoiler
Adding a perfect exclamation point to a stunning design, the rear decklid spoiler features a meaningful design element in spirited driving situations.

Platinum Gray Singleframe® grille
Aluminum-optic blades integrated into the lower front bumper, aluminum-optic side mirrors and Platinum Gray Singleframe® grille accents assert our intentions.
This is the kind of show of force one expects from a vehicle of this caliber. Artfully merging luxury and power, the S6 offers its signature sport seats with integrated head restraints. But it’s not all about the interior appointments. Your comfort and, even more noticeably, the vehicle’s performance, is further enhanced by the innovative Audi adaptive air suspension. And in uncomfortable situations, you’ll be glad you have the quick acceleration provided by the 4.0-liter TFSI® engine.

Luxury that shows inner strength.

Equally compelling on the roads, the Audi S6 Tremendous turbocharged engine casts a captivating shadow on the world.
FOCUS ON WHAT'S IMPORTANT.

You might be missing something, but we won’t.

With everything that’s out there, we thought it was time to focus on what you really need to see—like that car in your blind spot, for example. Fortunately, there’s a full suite of available Audi technologies that help take into account other vehicles as well as other intelligent systems. These can help you focus on what’s most important—the road.
Audi pre sense® plus offers comprehensive driving assistance with sensors in the front, side and rear. After visual, physical and aural collision warnings, there are four distinct phases for automatic preparation for the unavoidable: an upsurge of brake pressure, safety belt pre-tensioning, partial braking, and sunroof and window preparation. In severe cases, Audi pre sense® plus will engage full braking and deceleration.1

Audi adaptive cruise control with stop & go
Using long-range radar and a camera, the available Audi adaptive cruise control with stop & go helps read the traffic conditions and adjusts the speed, helping to bring the vehicle to a full stop before accelerating when traffic flow resumes.

Night vision assistant
Using infrared technology to help detect what lies ahead, this available feature uses thermal-imaging technology to help you identify trouble. Pedestrians and large animals can be detected over 300 feet in front of the vehicle, while objects can be detected over 900 feet ahead — all shown on the 7” color driver information system.

Audi active lane assist
Operating at speeds above 38 mph, this available system helps when the vehicle begins to leave the lane without signaling. Through gentle, corrective steering efforts, it helps the vehicle return to the lane and maintains the driving wheel in addition to lane-keeping assist. This way, Audi active lane assist informs and assists in the lane-deviation correction process and helps to further solidify the bond between driver and machine.

Audi side assist
The available Audi side assist uses radar sensors and two different optical warnings to help keep the driver informed about what is approaching from hard-to-see angles behind and to the side of the vehicle.

Audi head-up display
With easy-to-view, accurate visual information right at eye level, this available feature displays important driving information and even pedestrian-detection warnings when equipped with the optional right-side assistant.

There’s only so much our nervous system can process at one time. Too much, and you’ll feel the debilitating effects of sensory overload. We set out to combat this effect with driver assistance features designed to help lighten the sensory load. Whether it’s available advanced technologies like night vision assistant, which uses infrared technology to help detect pedestrians and large animals, or Audi side assist, which utilizes radar sensors to help inform you of vehicle approaching from the side and rear, you’ll find that we’ve developed them to work together to help keep you aware of your surroundings. It’s just another way we like to say “We’re looking out for you.”
At the heart of every great performance is an equally powerful instrument. Lightweight yet strong, a violin embodies many of the qualities that make up our core engineering philosophy. Whether it’s the way we bind different metals together to form a stronger connection or the way we shape our design for functional performance or even the way our crumple zones give in the right places to help dissipate energy, the similarities are present for a reason. You can’t expect to perform at the highest level without a solid foundation.

When the right materials strike a perfect chord.
A design that helps diminish an impact is no accident.

While we don’t like to make light of potential risks on the road, our engineers were tasked with doing just that. Considered a revolutionary technology, the A6 model’s aluminum hybrid construction developed by Audi engineers is at the same time lightweight and resilient, offering an innovative approach to both weight savings and strength. And while you may not think about weight savings when it comes to strength, we think the two go hand in hand. Complementing the advanced occupant safety cell is airbag technology designed to respond differently based on seat position, and specially constructed crumple zones that give way upon impact to help mitigate potential injury in a collision. When you add all of this to the rigidity of laser-seam-welded joints that enhance the strength of every Audi we make, it becomes pretty clear: helping diminish the impact of an unavoidable event doesn’t happen by accident.

ABS and ESC
Computerized technology that works in sync with the Anti-lock Brake System (ABS), Electronic Stability Control (ESC) helps minimize loss of stability, applying brake pressure to individual wheels and reducing throttle input to help counter oversteer or understeer when the vehicle needs it.

Airbags
With eight standard airbags, one for the driver and one for the front passenger, the A6 offers additional protection in the event of a collision. Front-impact airbags for both driver and front passenger are designed to specifically target and help protect the head during collisions, for added protection.

While we don’t like to make light of potential risks on the road, our engineers were tasked with doing just that. Considered a revolutionary technology, the A6 model’s aluminum hybrid construction developed by Audi engineers is at the same time lightweight and resilient, offering an innovative approach to both weight savings and strength.
Remember what we used to think was going to happen in the future? Flying cars, moving sidewalks and folding suitcases? While flying cars may never happen, science fiction still seems quaint compared to what reality offers. At Audi, our engineers and technicians are putting innovations in vehicles right now that would have seemed unimaginable 25 years ago. From the evolution in LED lighting technology and the introduction of dynamic steering in some models to the sheer processing power of our vehicles that allows for the seemingly infinite capabilities of Audi connect® and our MMI® with Google Voice™ integration, we aren’t in the business of imagining what the future will bring. We’re committed to bringing it.

1. Always pay careful attention to the road, and do not drive while distracted. The features and technologies discussed above are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The Wi-Fi® hotspot feature is intended for passenger use only.

It turns out, science fiction has nothing on reality.
are you the type that likes to know how to get to your destination before you even get in the car? with google earth™ integration, you’ll enjoy 3d imagery overlaid onto 3d satellite imagery to help visualize a street view of your city or high

way roads. and with the mmi navigation plus, you’ll always know what’s going on with your friends, family and the world. with access to facebook® and twitter®, you’ll always know what’s going on or with your friends, family and the world.
Looking back at the road just got a lot more immersive and intuitive. The available intelligent MMI® system offers a wealth of easily accessible information with a unique twist, or technically, a touch. Considered a revolution in intelligent simplicity, MMI touch with handwriting recognition is a technology that helps give you the ability to use commands and retrieve media with just a few simple strokes at a time. You'll quickly have access to information such as music files, contact information and destinations. The possibilities are even bigger when you input to Audi connect®, an innovative infotainment system infused with the power of Google™ technology. With this kind of access, you could say there is no greater stage.

MMI touch
Developed by the Audi Human Machine Interface (HMI) team, available MMI touch illustrates why making something simple to use can be so complex. The HMI team designed a system so advanced, it can read almost anyone's handwriting—yes, even if you choose to write with your non-dominant hand.

Audi media
The media function opens up a world of options with the available MMI navigation plus, allowing you to control the Audi music interface through two available USB ports, Secure Digital (SD) card slots, hard disk drive (HDD) audio jukebox or DVD, and BLUETOOTH® streaming audio from a compatible device.2

MMI navigation plus
Count on the available advanced navigation system to help guide you on your destination with stunning precision while putting a little more depth in your journey with help from Google Earth.™

BLUETOOTH® wireless technology
Unlock your compatible mobile phone’s potential through the MMI system. Simply pair them up and start enjoying near complete control at the touch of a button!2

SiriusXM® Satellite Radio
Go ahead. Crisscross the country. We assure you, you’ll never run out of entertainment as you cruise through channels of music, talk, sports and news.2

Quad-core processing power

Developed to enhance your automotive experience, the NVIDIA® quad-core Tegra® 3 processor powers the MMI system for a lightning-fast response and continuous functionality.
Orchestrate a more thrilling drive.

When we set out to compose the most advanced sound system we’ve ever assembled, we didn’t want you to just hear every note. We wanted you to experience them. From perfectly sculpted high notes to a crystal clear mid-range to deep-diving lows, the available Bang & Olufsen® Advanced Sound System delivers a stunning recreation of sound that you can feel as much as hear. Innovative sound engineering can also be found in the available BOSE® Surround Sound System, which effortlessly brings a performance to life. So whether you’re in the mood to be soothed, engaged or inspired, you can expect an immersive experience that can only be matched by the exhilaration of driving your Audi.

Bang & Olufsen® Advanced Sound System

The passion of Bang & Olufsen® matches well with Audi. Just consider the remarkable variable Bang & Olufsen® Advanced Sound System. A synthesis of design and performance, it has become the symbol of acoustic perfection. Bang & Olufsen® engineers help to craft meticulously rendered sound through 15 speakers (including two innovative retractable aluminum acoustic lenses) and an impressive 1,300 watts through the sealed speaker cabinets and BeoCore amplifiers.

BOSE® Surround Sound System

Hitting the right note on every drive, the available BOSE® Surround Sound System turns your Audi into a 14-speaker powerhouse with the help of innovative sound engineering and AudioPilot® noise compensation, which helps maintain a consistent volume under varying speeds and road conditions, and you get an acoustic listening environment that rivals any live performance.
The look of distinction and power is ever present, whether the Audi A6 is parked in your driveway or passing on the highway.

**Note:** Your mileage will vary and depends on several factors, including your driving habits and vehicle condition. Always obey all speed and traffic laws.
Great lines make the performance more memorable.

With the available S line® Sport package, we give Audi Sport® style to an already stunning Audi vehicle. So with Audi A6 models, you can get the more aggressive lines—and double takes—that come with Audi Sport design. More striking lines define the exterior, while a lowered stance, provided by the sport suspension calibration and available 20" 5-arm star design wheels, adds to its visual appeal. The S line is a premium collection of design cues and features that make the overall performance of your vehicle that much more memorable.

Our story doesn’t end with this brochure. In fact, we have many more stories to tell at Audi library. Simply download Audi library from the Apple® App Store™ or Google Play™ store, and you can read everything, from other model and accessory brochures to special editions pieces to the award-winning Audi Magazine. Dive into a massive trove of Audi specs, interactive content, videos, stories and technologies, just by downloading them onto your tablet.

Great lines make the performance more memorable.
Audi Genuine Accessories

Add distinction, versatility and the ultimate in self-expression with Audi Genuine Accessories. Whether you load the cargo carrier with climbing gear or add a set of stylish new wheels, we offer accessories to help enhance every facet of your lifestyle. When purchased from an authorized dealer, all pieces are backed by your vehicle’s 4-year/50,000-mile limited warranty, or for 12-month/12,000 miles from the accessory purchase date, whichever is greater. If you’re looking to personalize or help protect the vehicle you love, we have a solution designed by Audi that works for you.

1 Audi Genuine Accessories purchased from an authorized Audi dealer are covered for the greater of: (1) the accessory limited warranty period (12 months or 12,000 miles, whichever occurs first) from the time of purchase; or (2) the remainder of the New Vehicle Limited Warranty period (48 months or 50,000 miles, whichever occurs first). See your authorized Audi dealer for details.
2 All roof-rack system attachments require the base carrier bars. All attachments sold separately. Recreational equipment, sporting equipment and luggage not included.

Visit parts.audiusa.com to view the full line of Audi Genuine Accessories.

01 Fork-mount bike rack
Made of anodized aluminum, this rack features a quick-clamping device that can be secured with the included lock.

02 Compact cargo carrier
Extra gear won’t take up valuable trunk space with this aerodynamic carrier that offers generous 10.5-cu-ft capacity. Size: 76” long, 26” wide, 15” high.

03 All-weather cargo mat
Custom fit for your A6 or S6, the slatted inside edge of the original helps contour and protect carpets. The textured material helps control load shifting.

04 20” 5-tri-spoke wheel and tire package
A sporty yet elegant design in Anthracite with machine-polished spokes.

05 Premium textile floor mats
These skid-resistant, precision-fit mats are made of long-life fabric to help protect your vehicle’s interior from the elements. Mats are black and available in a set of four.

06 A6 all-weather floor mats
07 S6 all-weather floor mats
Deep-ribbed, channeled design helps protect your vehicle’s floor from water, mud, sand and snow. Black mats are available in sets of two for front or rear. Front mats feature the A6 or S6 logo.

08 Load-protection film
This custom-fit transparent film helps protect the rear bumper from scratches while loading and unloading. The red outline depicts the coverage area.

09 Sun protection system
Help reduce light transmission and keep the temperature down in your A6 with our window shades. Available in a set of three.
Note: A word about this brochure. Audi of America, Inc., believes the specifications in this brochure to be correct at the time of printing. However, specifications, standard equipment, options, fabrics, and colors are subject to change without notice. Some equipment may be unavailable when your vehicle is built. Please ask your dealer for advice concerning current availability of standard and optional equipment, and your dealer will verify that your vehicle will include the equipment you ordered. Vehicles in this brochure are shown with optional equipment. See your dealer for complete details on the Audi New Vehicle Limited Warranty, twelve-year limited warranty against corrosion perforation, and Audi 24/7 Roadside Assistance. (Roadside assistance coverage provided by Road America in the U.S. Certain conditions apply; see your dealer for details.)
