Note: A word about this brochure. Audi of America, Inc., believes the specifications in this brochure to be correct at the time of printing. However, specifications, standard equipment, options, fabrics, and colors are subject to change without notice. Some equipment may be unavailable when your vehicle is built. Please ask your dealer for advice concerning current availability of standard and optional equipment, and your dealer will verify that your vehicle will include the equipment you ordered. Vehicles in this brochure are shown with optional equipment. See your dealer for complete details on the Audi New Vehicle Limited Warranty, twelve-year limited warranty against corrosion perforation, and Audi 24/7 Roadside Assistance. (Roadside assistance coverage provided by Road America in the U.S. Certain conditions apply; see your dealer for details.) Tires supplied by various manufacturers. “Audi,” all model names, “Audi connect,” “Audi Sport,” “FSI,” “MMI,” “pre sense,” “quattro,” “Sideguard,” “Singleframe,” “TFSI,” “ultra,” and the four rings logo are registered trademarks of AUDI AG. “Alcantara” is a registered trademark of Alcantara S.p.A. “Apple” is a registered trademark of Apple Inc. “AudioPilot” is a registered trademark of the BOSE Corporation. “Bang & Olufsen” is a registered trademark of Bang & Olufsen. It only took us a few lines to come to a powerful conclusion.

We take careful consideration to the shape of things—such as how time and technology has changed the way we interact with our world, and how our vehicles should further evolve to enhance our time spent on the road. When it came to designing the all-new Audi Q7, our next progression was clear: to craft a vehicle that not only has available advanced technologies and luxuries that make for a near perfect sanctuary but is also thoughtfully shaped to transcend trends and remain timeless.
Progressive lighting design incorporates an arrow look, tapering at the front, to give the vehicle focus, in either standard xenon plus headlights or available full LED headlights.

3D Grille
The refreshed distinctive Singleframe® grille with a unique grille bar and tooth structure further emphasizes the vehicle’s standard quattro® all-wheel drive system. This generation Q7 exemplifies the limitless impact of imaginative design.

Exhaust
Trapezoidal exhaust outlets integrated within the rear bumper give the vehicle a wide, sporty appearance.

The many dimensions of unlimited potential.

It is one thing to be simply beautiful—and quite another to have beauty and depth of character. The all-new Audi Q7 illustrates a progressive design point of view, utilizing trapezoidal elements to create a striking presence that is equally as rugged as it is sophisticated. Thoughtful details like powerful wheel arches hint to the legendary Audi Quattro rally cars of the past and emphasize the vehicle’s standard quattro® all-wheel drive system. This generation Q7 exemplifies the limitless impact of imaginative design.

The dynamic body lines formed by the headlights, bumper and Singleframe® grille create a dimensional, dynamic look that signals our先进 thinking in next-generation Audi design.

Headlights
Progressive lighting design incorporates an arrow look, tapering at the front, to give the vehicle focus, in either standard xenon plus headlights or available full LED headlights.

3D Grille

Exhaust
Trapezoidal exhaust outlets integrated within the rear bumper give the vehicle a wide, sporty appearance.

2017 Audi Q7 3.0T Prestige shown in Graphite Gray metallic with available equipment.

The many dimensions of unlimited potential.
Every journey in your Audi Q7 should be a lavish one, whether you are headed to the supermarket or to a vacation destination. When creating an interior concept to match the bold, new exterior look, Audi designers wanted to create an environment where incredible versatility and luxury intersect. Part of designing this near-perfect interior was engineering an ergonomic space where everything you need is easily visible and accessible. Elements such as the available next-generation Audi virtual cockpit display with crisp clarity and functionality; to improved MMI® display placement; to a gear selector that provides a fixed point for the MMI control, all work together harmoniously to help make your vehicle even more of a mobile sanctuary.

The luxury of a family escape.

Panoramic sunroof
The standard panoramic sunroof with tilt and sliding features provides a virtually unobstructed view to nearly every passenger while creating a sense of openness to the cabin. On the occasion you would like some shade, a power sunshade is included for your comfort.

Ambient lighting
Available Ambient lighting packages create a functional, reactive and beautifully lit cabin. Interior contour and background lighting can be customized to adjust illumination based on Audi drive select mode or individual style.

Four-zone automatic climate control
Available four-zone automatic climate control provides more of its passengers with the ability to dial in their ideal temperature. Additionally, the available panoramic air diffuser vent helps provide a more natural airflow.

We have given this SUV more than a touch of opulence with the available Luxury package, which includes luxurious leather seating surfaces with a touch of Alcantara® headliner and power soft-closing doors.

2017 Audi Q7 3.0T Prestige shown with available Cedar Brown Valcona leather and available equipment.
Seating configurations

A split tumble-folding 35/30/35 second row and a power 50/50 split-folding third row allow for a fully configurable interior space.

Making an accommodation is never out of the question.

As we see it, a vehicle should fit both the driver’s and the passenger’s needs. The improved interior space in the all-new Audi Q7 allows for customizable seating configurations with more headroom, leg room and shoulder room than before. The seats are easy to configure with a standard power third row for convenience. When the little ones are traveling, you can place car seats in any of the five LATCH-point locations, creating a flexible and luxurious travel experience for all those on board.

Power tailgate

A standard power tailgate (with programmable opening height) can feature an available hands-free opening function, where the tailgate releases and rises or closes after you sweep your foot under the rear bumper threshold.

Third-row ingress, egress

The second-row outboard seats tumble forward to allow for quick and easy access to the third row.
A showcase of our driving desire for superior engineering.

It should be apparent from our drivetrain that we strive for engineering perfection. So you’ll experience the kind of dynamic performance and efficiency people have come to expect of Audi. And with an advanced transmission and the road-gripping capability of quattro® all-wheel drive applying all that power to the ground, it will feel as good as its engineering suggests.

TFSI® V6 engine
The 333-horsepower 3.0-liter TFSI V6 engine paired with FSI® direct injection and a belt-driven supercharger that features a magnetic clutch for greater efficiency and counter-rotating four-vane rotors that provide greater efficiency, the combination of engineering achievements that allows for nearly instantaneous buildup of 325 lb-ft of torque directly off idle engine speeds.

Shift-by-wire
The eight-speed Tiptronic® automatic transmission in the Audi Q7 utilizes a shift-by-wire technology and is fully engaged by the vehicle’s onboard computer. Efficient design and computer-managed shift patterns add to the vehicle’s efficiency.

Towing capacity
The Audi Q7 stands as a leader with an incredible 7,700 lb max tow rating. The package includes a trailer hitch receiver with brake controller pre-wiring.

Start-stop efficiency system
As an intelligent vehicle system, this effective engine management program can help lower fuel consumption as well as CO₂ emissions by automatically shutting off the engine at red lights, perhaps, during certain stop-and-go driving. Once you are ready to resume, or if other critical vehicle systems require it, the engine will restart nearly instantaneously.

Shift-by-wire technology

At Audi, we believe you should be the ultimate master of your road-going domain. That’s why we created the available Audi drive select system. It gives you the ability to adjust the vehicle’s driving characteristics to suit your style and needs. When equipped with standard suspension, the drive select system includes five modes, and when equipped with available Audi adaptive air suspension, the system adds boost modes that raise the vehicle’s suspension height to adapt to more-demanding off-road conditions. When almost any kind of road comes into question, Audi drive select will let you answer.

**Comfort mode**
Perfect for those long highway stretches, this setting adds optimized suspension and steering and a closer shift pattern to help provide a more relaxed drive.

**Dynamic mode**
Tighter steering, a firm suspension and a more responsive throttle help give this setting an aggressive feel and focused performance.

**Auto mode**
The best of both worlds, this option is dialed to automatically adjust settings for a seamless combination of comfort and responsiveness based on your driving style and road conditions.

**Individual mode**
Drive your way — this mode allows you to adjust the steering, suspension, throttle and transmission upshifts to your style.

**Offroad mode**
Similar to Auto mode, Offroad mode will optimize all adjustable vehicle settings for the reduced traction environment of off-road excursions.

**Allroad and Offroad/Lift modes**
When equipped with the available Audi adaptive air suspension, these modes will raise the suspension height by either +25 mm or +60 mm for increased ground clearance when driving off-road.

**All-wheel steering**
This available steering system with speed-dependent control helps give the vehicle a tighter turning radius at low speeds for increased maneuverability and more precise steering at higher speeds, such as highway lane changes. This helpful system offers increased driver confidence, providing you with improved control in almost any situation.

**quattro® all-wheel drive**
There is a reason quattro® has been known as the all-wheel drive standard since its inception: It has helped us win races all over the world—and lots of them. More than just a performance-enhancing technology, it has also become the proven foul-weather friend. Under normal driving conditions, the center differential splits torque at a ratio of 40:60, front to rear (maximizing performance on dry roads). As driving conditions change and become more challenging, the ratio is optimized to help maintain grip. This translates to a more predictable and more confident driving experience.

**Adaptive air suspension**
Showcase your preference in the available adaptive air suspension with the height of the vehicle, based on the vehicle’s speed and your drive select preference. You can change the ride height levels in four modes, including Standard, Allroad (+25 mm), Offroad/Lift (+60 mm), Dynamic (-15 mm) and loading (lowers the rear of the Q7 by 15 mm).

**quattro® all-wheel drive**

You'll find that we've developed available driver assistance technologies that work together to help keep you aware of your surroundings. Our optional night vision assistant uses infrared technology to help detect pedestrians or large animals. Standard Audi pre sense® basic closes the side windows and panoramic sunroof.

**Vehicle exit assist**

As part of available Audi pre sense rear, Vehicle exit assist notifies the driver when other vehicles are approaching from behind when the vehicle doors are opened. By utilizing two radar sensors in the rear bumper, the system warns the driver or passenger via both a brightly illuminated LED light strip in the door and acoustic warnings.

**Rear cross traffic alert**

Included with available Audi pre sense rear, Rear cross traffic alert helps the driver of approaching vehicles when reversing out of a perpendicular space by warning on the MMI® display. In case of critical situations, the system will provide a warning tone and a brake jolt will be applied.

**Collision avoidance assist**

In the event that a sharp maneuver is needed, the available Audi pre sense plus includes Collision avoidance assist that helps the driver when turning into the adjacent lane. The system computes a suitable path for the vehicle and provides steering inputs to help the driver stay on the intended path.

**Audi pre sense city**

At speeds of up to 52 mph, the standard Audi pre sense city helps detect curving and stationary vehicles and pedestrians, warning the driver of a possible collision, and when needed, helps initiate emergency braking.

**Senses working overtime.**

<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Night vision assistant</td>
<td>This available system uses thermal imaging technology to help detect what lies ahead. Pedestrians and large animals up to 300 feet in front of the vehicle can be highlighted, while objects over 900 feet ahead can be shown within the available Audi virtual cockpit display.</td>
</tr>
<tr>
<td>Active lane assist</td>
<td>Operating at speeds above 38 mph, this available system can help keep the driver in the lane without signaling. Through gentle, corrective steering efforts, it helps the vehicle remain in the lane.</td>
</tr>
<tr>
<td>Traffic jam assist</td>
<td>Included with available Audi adaptive cruise control with stop &amp; go function, Traffic jam assist combines acceleration, braking and steering guidance, allowing for navigation of traffic jams at speeds between 0.5-7 mph in congested traffic.</td>
</tr>
<tr>
<td>Head-up display</td>
<td>With easy-to-view, accurate visual information right at eye level, this available feature displays important driving information and even pedestrian detection warnings when equipped with the optional night vision assistant.</td>
</tr>
<tr>
<td>Traffic sign recognition</td>
<td>This available camera-based system detects traffic signs and displays them on the instrument cluster or available Audi virtual cockpit, and it even evaluates various driving conditions, such as school zones and updated speed limits.</td>
</tr>
<tr>
<td>Audi side assist</td>
<td>Available Audi side assist uses radar sensors and two different optical warning systems to help keep the driver informed about what is approaching from hard-to-see angles behind and to the side of the vehicle.</td>
</tr>
<tr>
<td>Parking system plus</td>
<td>Helping to make parking easier and safer, the standard parking system plus includes front and rear acoustic parking sensors in addition to the standard rear acoustic parking sensors. For added benefit, the rear view camera offers selectable guidelines for parking in parallel or perpendicular spaces.</td>

1 The features discussed are not substitutes for attentive driving. Always check surrounding traffic and use turn signals. Please see your owner’s manual for further details and important limitations.
Dramatization

1. Airbags are supplemental restraints only and will not deploy in all crash circumstances. Always use safety belts and refer to your owner’s manual for the proper use of the restraint systems when transporting children. 2. This is a dramatization and does not depict what will happen in a collision. All bags will not inflate simultaneously in real-world collisions, and, if multiple bags do deploy, they will be in various stages of inflating/deflating and will never all be inflated at the same time. 3. 2017 EPA estimates not available at time of printing. See www.fueleconomy.gov for details. Your mileage will vary and depends on several factors, including your driving habits and vehicle condition. 4. Maximum tow rating. Other accessories and options may reduce maximum towing capacity. See vehicle owner’s manual for details.

What we’re made of is a source of inner strength.

Clearly, there’s strength in numbers—especially in this case. In what some may consider a revolutionary philosophy, the Q7 model’s implementation of ultra-lightweight technology through aluminum hybrid construction developed by Audi engineers uses a variety of materials that together are both lightweight and resilient, helping provide better handling, enhanced efficiency and increased towing capacity. 1

up to 474 lbs weight savings

ABS and ESC

Computerized technology that works in sync with the Anti-lock Brake System (ABS). Electronic Stability Control (ESC) helps minimize almost any loss of stability, applying brake pressure to individual wheels and reducing throttle input to help maintain control or, unusually, when the vehicle needs it.

Six airbags

Designed to work in conjunction with our safety belts and properly adjusted head restraints, our airbag system is a comprehensive safety measure. The Q7 model has six front passenger's-side airbags, plus side airbags for both driver and front passenger, and available rear passenger thorax side airbags, you’ll feel practically surrounded. And that is a good thing.

While we don’t like to make light of potential risks on the road, our engineers were tasked with doing just that. Complementing the advanced occupant safety cell is airbag technology designed to respond differently based on seat position, and specially constructed crumple zones that give way upon impact to help mitigate potential injury in a collision. When you add all of this to the rigidity of laser-seam welded joints that help enhance each Audi we make, it becomes pretty clear: Helping diminish the impact of an unavoidable event doesn’t happen by accident.

Having another layer of protection is no accident.
Your central command for the information age.

Sure, the bandwidth of mobile devices is impressive, but there, they don't handle like your Audi. Luckily, Audi connect® offers your favorite familiar functionalities, with the means to help you get to where you want to go! The next generation of Audi connect offers three available options—Connect PRIME, Connect PLUS, and Connect CARE—providing assistance and security services to help you in emergency situations, at no additional cost for 12 months after the purchase of your new vehicle. Connect PRIME offers a collection of robust features like Google Voice Search™ and Audi Semi-Dynamic Route Guidance with INRIX XD Traffic to help you navigate and stay informed—And for fun updates and entertainment. Connect PLUS keeps your passengers connected even on the go through an in-vehicle Wi-Fi hotspot with a 4GLTE connection. Both Connect PRIME and Connect PLUS features are offered complimentary for a six-month trial period, and after that, stay connected by visiting myAudiConnect.com.

Connect PRIME

- Google Earth™ integration, you'll enjoy 3D satellite imagery, to help avoid traffic.
- Navigation plus system reconfigure your route with INRIX XD® Traffic to help you navigate and stay informed.
- On-demand Wi-Fi hotspot, you can set the Wi-Fi password. You can receive text messages, and let your vehicle show you the way.
- Twitter®, your passengers will know what your friends, family and the world is going on with their friends, family and the world.
- Remote lock/unlock, you can easily lock or unlock your vehicle remotely through your compatible smartphone and SmartKey®.
- Onboard Wi-Fi hotspot, your passengers will know what's going on with their friends, family and the world.
- Siri® and Google Voice Search™, stream music from your compatible phone or listen to your favorite sources with text-to-speech function.
- Roadside assistance and automatic crash notifications.
- Weather information, get information about current events, exciting travel information for local landmarks in your area of interest, check space availability and set your selection as a destination to help navigate directly to your destination.
- Twitter®, your vehicles will know what's going on with your friends, family and the world.
- Siri® and Google Voice Search™.
Always pay careful attention to the road, and do not drive while distracted. The features and technologies discussed above are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The Wi-Fi® hotspot feature is intended for passenger use only. See pages 24–25 for important information regarding MMI® navigation plus. Always pay careful attention to the road, and do not drive while distracted. Not all features available on all operating systems. Standard text and data usage rates apply. These features require compatible device, operating system, and mobile apps. See mobile device and app providers for terms and privacy. “Android Auto” is a trademark of Google Inc. “Apple CarPlay” is a trademark of Apple Inc.

The available Audi virtual cockpit operates in two distinct modes—Classic and Infotainment—creating a unique experience that fits your style and preferences.

**MMI® all-in-touch with handwriting recognition**
Developed by the Audi Human Machine Interface (HMI) team, available MMI all-in-touch illustrates why making something simple to use can be so complex. The HMI team designed a system so advanced, it can read almost anyone’s handwriting—even if you choose to write with your non-dominant hand.

**MMI® navigation plus with voice control**
Count on the available advanced navigation system with voice commands to help home in your destination with stunning precision while putting a little more depth in your journey with help from Google Earth™.

**BLUETOOTH® wireless technology**
Unlock your compatible mobile phone’s potential through the MMI system. Simply pair them up and start enjoying near-complete control at the touch of a button.

**MMI® smartphone interface**
Connect your compatible smartphone via USB connection directly on the MMI display. Control Google™ Android Auto or Apple® CarPlay apps via your MMI controls.

**Audi virtual cockpit**
The available Audi virtual cockpit is another testament to the progressiveness of the new Q7. The cockpit is an innovative, fully digital instrument cluster shown on a 12.3-inch display, delivering vibrant, lifelike images at 60 frames per second. There are two unique modes for viewing vital data: Classic and Infotainment. Classic mode offers a clear, view of a traditional speedometer and tachometer. Infotainment mode maximizes the available navigation or other infotainment visuals.

**Redefining the all-access pass.**
Going backstage just got a lot more immersive—and intuitive. The available intelligent MMI® system offers a wealth of easily accessible information with a unique twist, or technically, a touch. The system has simple access to information such as music files, contact information, and destinations. The possibilities are much bigger when you equip your available Audi connect®, an innovative infotainment system infused with the power of Google™ technology. With this kind of access, you could say there is no greater stage.
When we set out to compose a truly inspiring sound system, we didn’t just want you to hear every note. We wanted you to experience them. From perfectly sculpted high notes to a crystal clear mid-range to deep-diving lows, the available Bang & Olufsen® 3D Advanced Sound System helps to deliver an authentic and multidimensional arrangement of thrilling sound that you can feel as much as hear. So whether you’re in the mood to be soothed, engaged or inspired, you can expect an immersive experience that can only be matched by the exhilaration of driving your Audi. A different feel to hearing.

**Bang & Olufsen® 3D Advanced Sound System**

The passion of Bang & Olufsen® matches well with Audi. Just consider the exclusive collaboration to create the Bang & Olufsen® 3D Advanced Sound System on the all-new Audi Q7. Using conventional surround sound technology, Bang & Olufsen® introduces additional dimensions, such as the BeoCore amplifier with ICEpower® and Acoustic Lens Technology to provide an unrivaled entertainment experience. This meticulously rendered sound is amplified through 23 speakers and an impressive 1,920 watts and 5.1 Surround Sound.

Tilt and telescopic manually adjustable steering column

Aluminum-optic door blade with quattro® script

19” 255/55 all-season run-flat tires

Lower Anchors and Tethers for Children (LATCH)
High-performance tires are designed for better performance and handling in warm climates. When driving in cold, snowy conditions, we recommend using tires, which offer better traction under those conditions. We suggest you use the Audi-recommended winter or all-season tires specified for your Audi. High-performance tires also have a lower aspect ratio that aids performance and handling. However, low-profile tires can be easily damaged by road hazards such as potholes, cracks, or debris. Be careful to avoid road hazards and reduce your speed, especially if your vehicle is equipped with low-profile tires. Please also remember when making turns, it is more difficult to control speed, braking, and acceleration, which can lead to loss of control and increased stopping distance. Finally, these tires may wear more quickly than other choices. It is important that the inflation pressure is regularly checked and maintained at recommended levels.

Airbags are designed to provide additional protection for the passengers. Please use seat belts and always have children in appropriate restraint systems. Ensure airbags are not blocked or interfered with. If airbags are deployed, have your vehicle checked by an authorized service center.

Maximum tow rating. Other accessories and options may reduce maximum towing capacity. See vehicle owner’s manual for details.

Q7 3.0T Prestige

### Infotainment/Technology
- Audi virtual cockpit (12.3" LCD fully digital instrument cluster with two visual modes: Classic and Infotainment)
- BOSE® 3D Sound System with 19 speakers, BOSE® Advanced Staging Technology, 15-channel amplifier and 558 watts

### Driver Assistance/Convenience
- Head up displays with navigation and assistance systems information
- Top tier camera system

### Exterior
- 20" 10-spoke-star design wheels (Gray/Polished finish) with 285/45 all-season run-flat tires
- Full LED headlights

### Top track speed is electronically limited in the U.S. Always obey all speed and traffic laws.

### Maximum tow rating...

### 2017 EPA estimates not available at time of printing. See [www.fueleconomy.gov](http://www.fueleconomy.gov) for details. Your mileage will vary and depends on several factors, including your driving habits and vehicle condition.

To download the Audi library app onto your device, just follow these steps:

› Go to the Apple® App Store™ or Google Play™ store
› Search for “Audi library”
› Download the app onto your compatible device

Our story doesn’t end with this brochure. In fact, we have many more stories to tell at Audi library. Simply download Audi library from the Apple® App Store™ or Google Play™ store, and you can read everything, from other model and accessory brochures to special-edition pieces to the award-winning Audi Magazine. Dive into a massive trove of Audi specs, interactive content, videos, stories and technologies, just by downloading them onto your tablet.

There’s always another story.

Audi Genuine Accessories
Add distinction, versatility and the ultimate in self-expression with Audi Genuine Accessories. Whether you load the cargo carrier with climbing gear or add a set of stylish new wheels, we offer accessories to help enhance every facet of your lifestyle. When purchased from an authorized dealer, all pieces are backed by your vehicle’s 4-year/50,000-mile limited warranty, or 12 months/12,000 miles from the accessory purchase date, whichever is greater. If you’re looking to personalize or help protect the vehicle you love, we have a solution designed by Audi that works for you.
