Winter Wheel & Tire Packages
2017–2018 Season

Don't let a little cold weather stop you.
Go confidently from one adventure to the next.

An Audi Winter Wheel & Tire Package¹ can help you meet the challenges of winter driving. Audi Original Winter Tires are recommended wherever season-long temperatures reach 45°F or less. Performance-matched to your Audi model, they take up where summer performance and all-season tires leave off. In wet or dry conditions, on clear or snow-covered roads, Audi Original Winter Tires can help you maintain control. So whether you’re hitting the slopes or taking the kids to school, you can drive with confidence.

Audi Winter Wheel & Tire Package benefits:
- Promote safer travels for you and your family
- Lessen stress on your winter journeys
- Extend the life of your stored summer tires
- Deliver year-round Audi performance

Choose confidence and Audi performance this winter.

- Tread compounds engineered to remain pliable below 45°F help enhance traction
- Deep tread grooves can help provide better grip in snow, as well as channeling slush and water away from the tread to help reduce hydroplaning
- Tiny slits in the tread create thousands of biting edges to help provide traction on a variety of winter surfaces

To reserve the Audi Winter Wheel & Tire Package specific to your Audi model, contact your Audi dealer today.

¹ When driving during cold, snowy or icy weather conditions, ensure that your vehicle is equipped with appropriate all-season or winter weather tires. Even with appropriate tires, you must always drive in a manner appropriate for the weather, visibility and road conditions. Tires are supplied and warranted by their manufacturer.
Model-Specific Packages

A3S3

Dramatization.

When driving during cold, snowy or icy weather conditions, ensure that your vehicle is equipped with appropriate all-season or winter weather tires. Even with appropriate tires, you must always drive in a manner appropriate for the weather, visibility and road conditions. Tires are supplied and warranted by their manufacturer.
Turnkey and tested.

Audi Genuine Alloy Wheels
Audi Original Winter Tires come already mounted and balanced on premium alloy wheels, to make seasonal tire changes quick and convenient. Rigorously tested Audi Genuine Alloy Wheels feature:
- Precision casting and metallurgy, for balance, performance and strength
- An advanced multi-coat finish, to help resist harsh winter conditions
- Premium styling, to complement your specific Audi model

Testing their mettle
To help ensure uncompromised performance and strength, Audi Genuine Alloy Wheels are subjected to a rigorous battery of tests, which includes:
- Curve rotation testing: An endurance test of cornering performance to help verify structural integrity and casting quality.
- Radial impact and ridge testing: Simulates lateral impacts with curbs and vertical impacts with potholes. An essential test of performance on rough and uneven roads.
- Acid, salt and extreme-climate testing: Multilayer paint and protective coatings are exposed to harsh UV, weather and corrosive forces to ensure their integrity even under severe conditions.
- Regulatory compliance testing: Helps ensure that Audi Genuine Alloy Wheels meet U.S. Government requirements.

3 When driving during cold, snowy or icy weather conditions, ensure that your vehicle is equipped with appropriate all-season or winter weather tires. Even with appropriate tires, you must always drive in a manner appropriate for the weather, visibility and road conditions. Tires are supplied and warranted by their manufacturer.
Helping to safeguard your investment.

On the road or in storage, Audi Winter Wheel & Tire Packages come with a wide range of protection against damage and degradation. It’s one more reason to choose your Audi Tire Center.

100% tire replacement cost first year.

50% tire replacement cost second year.

Complimentary Road Hazard Coverage

Audi Winter Wheel & Tire Packages come with 24 months of Road Hazard Coverage against tire damage caused by poorly maintained roads or debris. Coverage is prorated annually for 100% of the replacement cost the first year, 50% of the replacement cost the second year.

Complimentary protective totes

Your Audi Winter Wheel & Tire Package includes a set of complimentary Audi Tire Totes. They make it easier to transport dismounted wheels and tires, and help protect them during off-season storage. See dealer for details.

4 The program is administered by NUI of Florida, Inc. Coverage ends at the earlier of: (1) expiration of 24 months from date of purchase; or (2) when 3/32” or less of tread remains. Coverage is 100% of the current retail price of the tire in the first year; 50% in the second year. Does not include any other costs including but not limited to mounting, balancing, wheel weights, shop supplies, taxes, disposal fees, environmental fees, tire pressure sensors, and/or valve stems. Only Audi Original equipment tires, Audi Original equipment alternative tires, winter tires, and wheel and tire packages purchased by customers or installed on a customer-purchased Audi Certified Pre-owned or Used Audi vehicle are eligible. Non-transferable. No cash value. Other restrictions apply. See participating dealership or program brochure for details. 5 Subject to availability.
Audi of America, Inc. believes the information in this brochure to be correct as of September 2017. However, items, availability, specifications, features and colors are subject to change without notice. Vehicles in this brochure are shown with optional equipment. Images shown may vary slightly from actual applications. See your dealer for complete details on limited warranties and tires supplied by various manufacturers.

When driving during cold, snowy or icy weather conditions, ensure that your vehicle is equipped with appropriate all-season or winter weather tires. Even with appropriate tires, you must always drive in a manner appropriate for the weather, visibility and road conditions. It is important that the inflation pressure is regularly checked and maintained at recommended levels.

Tires are supplied and warranted by their manufacturer. To assist you in obtaining warranty information for tires, a list of manufacturers are provided in your Audi Warranty & Maintenance Booklet, which is included in your owner’s manual packet. Certain winter tires have a lower profile that aids performance and handling. Driving over rough or damaged road surfaces, as well as debris, curbs and other obstacles can cause serious damage to wheels, tires, vehicle body and suspension parts. Be careful to avoid road hazards and reduce your speed, especially if your vehicle is equipped with low-profile tires.

All previous catalogs, product descriptions and lists are no longer valid.

NOTE: Photos showing tire tread are meant to display tread pattern and do not depict actual tire size included with package.
