1) First minor maintenance service at 10,000 miles or 1 year after delivery, whichever occurs first. Minor maintenance services thereafter occur at intervals of 20,000 miles or every 2 years after the last minor maintenance service, whichever occurs first.
2) First standard maintenance service at 20,000 miles or 2 years after delivery, whichever occurs first. Standard maintenance services thereafter occur at intervals of 20,000 miles or every 2 years after the last standard maintenance service, whichever occurs first.

NOTE: The intervals shown in this table are based on vehicles operating under normal conditions. In case of severe conditions, such as extremely low temperatures, excessive dust, etc., it is necessary for certain operations to be carried out in between the given intervals. This applies particularly to engine oil changes and the cleaning or replacing of the air cleaner filter element.

Check all completed items

Minors Maintenance
- Brake system - Check the thickness of the brake pads
- Engine oil and oil filter - Change oil and replace filter
- Multi-point inspection - Complete
- Service reminder indicator display - Reset display
- Tire repair kit - Check and record the completeness and expiration date (if equipped)

Standard Maintenance (Includes All Minor Maintenance Items)
- Body/chassis - Visually inspect for possible paint damage and corrosion, from the inside and outside, with the doors as well as hood and trunk lids open
- Brake system - Check for damage and leaks, condition of brake hoses and the presence of the bleeder caps; Check the thickness of the brake pads.
- Connected box battery - Check state of health with Vehicle Diagnostic Tester in Guided Functions (A4, S4, A4 allroad®, A5, S5, RS 5, A6, A7, AB L, Q5, SQ5, Q7, and Q8)
- Convertible top - Lubricate latch mechanism (A5 Cabriolet, S5 Cabriolet only)
- Door hinge (including door stay) and door latch - Lubricate
- Engine cooling system - Check freeze protection and coolant level
- Engine oil and oil filter - Change oil and replace filter
- Engine, transmission, final drive, steering - Visual inspection for leaks and damage
- Exterior lighting - Check front and rear lights, turn signals, cornering lights, reverse lights, license plate lights, and hazard warning lights
- First aid kit - Check and enter expiration date YYYY / MM ______
- Front and rear axle/suspension components - Check dust seals on ball joints and tie rod ends; check for excessive play
- Headlights - Check adjustment
- Hood safety catch – Lubricate (A3, S3, RS 3 only)
### Standard Maintenance (continued)

- Horn - Check function
- Instrument cluster - Check warning and indicator lights
- Interior lights - Check all interior lights, trunk lights, and glove box compartment illumination
- Multi-point inspection - Complete
- Plenum chamber and water drain valves: Check for dirt. (A8 L, Q7, Q8 only)

**NOTE:** Time spent cleaning of item is a separate charge for service time

- Road test - Perform
- Rollover protection - Check the rollover protection when the convertible top is open (A3 Cabriolet only)
- Safety belts - Check function
- Service reminder indicator display - Reset display
- Spare tire - Check condition and tire inflation pressure, adjust if necessary (if equipped)
- Spoiler - Lubricate rear spoiler (TT, TT Roadster only)
- Sunroof systems - Check function (if equipped)
- Tires - Check condition and tire tread wear. Check and record the tread depth
- Tires - Check tire inflation pressure and adjust if necessary
- Tire repair kit - Check and record the completeness and expiration date (if equipped)
- Underbody - Check for damage and leaks, check the wheel well liners, underbody paneling and all lines are properly mounted
- Warning triangle - Check if present (if equipped)
- Windshield washer and headlight washing system - Add fluid if necessary. Check adjustment and function
- Wiper blades - Check condition and replace if necessary

**See Engine Oil Type Chart on next page for specific viscosities**
**Engine Oil Types**

(Edition 04.2018)

---

**CAUTION**

All quantities are approximate. Always refer to the Repair Manual and/or the Maintenance Procedures for correct filling instructions.

Refer to Technical Bulletin 2010043 for engine oils meeting the required Audi oil quality standards.

Part numbers are for reference only. Always check with your parts department for the latest information.

---

**Note:**

*Developed by Castrol®, in strategic co-operation with Volkswagen Group, the following Castrol® products meet VW/Audi specifications.*

- **502 00 / 505 00 / 505 01**
  - Castrol EDGE® Professional® 5W40

- **508 00 / 509 00**
  - Castrol EDGE® Professional® 0W20 Long Life IV

- **504 00 / 507 00 Diesel Oil**
  - Castrol EDGE® Professional® 5W30 LL03

- **501 01 / 505 00**
  - Castrol EDGE® Professional® 10W60 Super Car (Formerly Castrol EDGE® Professional TWS 10W60)

1) First minor maintenance service at 10,000 miles or 1 year after delivery, whichever occurs first. Minor maintenance services thereafter occur at intervals of 20,000 miles or every 2 years after the last minor maintenance service, whichever occurs first.
2) First standard maintenance service at 20,000 miles or 2 years after delivery, whichever occurs first. Standard maintenance services thereafter occur at intervals of 20,000 miles or every 2 years after the last standard maintenance service, whichever occurs first.

Check all completed items

**Minor Maintenance**
- Brake system - Check the thickness of the brake pads
- Connected box battery - Check state of health with Vehicle Diagnostic Tester in Guided Functions
- First aid kit - Check and enter expiration date YYYY / MM ________ (if applicable)
- Front and rear axle/suspension components - Check dust seals on ball joints and tie rod ends; check for excessive play
- Instrument cluster - Check warning and indicator lights
- Multi-point inspection - Complete
- Service reminder indicator display - Reset display
- Space saver spare wheel and tire - Check condition and tire inflation pressure, adjust if necessary (if equipped)
- Tires - Check condition and tire tread wear; Check and record the tread depth
- Tires - Check tire inflation pressure and adjust if necessary
- Tire repair kit - Check and record the completeness and expiration date (if equipped)
- Wiper blades - Check condition and replace if necessary

**Standard Maintenance (Includes All Minor Maintenance Items)**
- Body/chassis - Visually inspect for possible paint damage and corrosion, from the inside and outside, with the doors as well as hood and trunk lids open
- Brake system - Check the thickness of the brake pads
- Brake system - Check for damage and leaks, condition of brake lines and the presence of the bleeder caps
- Front axle drive - Check for contamination and damage
- Connected box battery - Check state of health with Vehicle Diagnostic Tester in Guided Functions
- Cooling system for electrical components - Check coolant level and add if necessary according to procedure in ElsaPro
- Door hinges (including door stay) - Lubricate
- Exterior lighting - Check front and rear lights, turn signals, cornering lights, reverse lights, brake lights, license plate lights, and hazard warning lights
- First aid kit - Check and enter expiration date YYYY / MM ________ (if applicable)
- Front and rear axle/suspension components - Check dust seals on ball joints and tie rod ends; check for excessive play
- Front axle drive - drain coolant (with small cover removed)
- Headlights - Check adjustment
Standard Maintenance (continued)

- High voltage cooling system - Check for damage and leaks
- High voltage safety instruction labels - Check safety instruction labels for legibility
- High voltage system components - Check for damage and leaks; check cables and insulation for damage and proper mounting
- Horn - Check function
- Instrument cluster - Check warning and indicator lights
- Interior lights - Check all interior lights, trunk lights, and glove box compartment illumination
- Motor compartment - Check transmission, final drive, and steering for leaks
- Multi-point inspection - Complete
- Panoramic sunroof system - Check function and drainage system by fluid check according to Elsa (if equipped)
- Plenum chamber and water drain valves: Check for dirt, and clean if necessary
  NOTE: Time spent cleaning of item is a separate charge for service time
- Road test - Perform
- Safety belts - Check function
- Service reminder indicator display - Reset display
- Space saver spare wheel and tire - Check condition and tire inflation pressure, adjust if necessary (if equipped)
- Sunroof system - Check function (if equipped)
- Tires - Check condition and tire tread wear. Check and record the tread depth
- Tires - Check tire inflation pressure and adjust if necessary
- Tire repair kit - Check and record the completeness and expiration date (if equipped)
- Underbody - Check for damage and leaks, check the wheel well liners, underbody paneling and all lines are properly mounted
- Warning triangle - Check if present (if equipped)
- Windshield washer and headlight washing system - Add fluid if necessary. Check adjustment and function
- Wiper blades - Check condition and replace if necessary
